## New and Changed Information

This section provides information on new features and changed behavior in Cisco Intersight Managed Mode Transition Tool, Release 2.0.

**Table 1: New Features and Changed Behavior in Intersight Managed Mode Tool, Release 2.0.1**

Feature	Description	Where Documented
Support for UCS Central	Cisco Intersight Managed Mode (IMM) Transition Tool, Release 2.0.1, introduces the ability to transition the Service Profile Templates from UCS Central to Intersight.	<a href="#">Overview</a>
Service Profile/Template-based conversion	IMM Transition Tool, Release 2.0.1 converts only the policies that are attached to the selected Template(s).	<a href="#">Working with Cisco Intersight Managed Mode Tool</a>
Selective conversion of Service Profile Templates	In IMM Transition Tool, Release 2.0.1, you can selectively convert Service Profile Template(s) to Intersight.	<a href="#">Working with Cisco Intersight Managed Mode Tool</a>
Cloning of Transition	IMM Transition Tool, Release 2.0.1, allows you to clone any existing transition, edit the cloned configuration, and generate readiness report.	Transition Management in <a href="#">Working with Cisco Intersight Managed Mode Tool</a>

Feature	Description	Where Documented
Transition Settings	With IMM Transition Tool, Release 2.0.1, you can set the conversion options to control the behavior of the transition.	<a href="#">Appendix B: Transition Settings</a>
