New and Changed Information for this Release

This chapter contains the following section:

New and Changed Information for this Release

The following table provides an overview of the significant changes to this guide for this current release. The table does not provide an exhaustive list of all changes made to this guide or of all new features in this release.

Table 1: New Features and Changed Behavior in Cisco IMC Supervisor, Release 2.2(1.3)

Feature	Description	Where Documented
Changes to the VIC Adapter Policy	Starting with this release, for a VIC adapter policy, Cisco IMC Supervisor allows you to configure the Admin Forward Error Correction (FEC) mode for Cisco VIC 1455, Cisco VIC 1457, Cisco VIC 1495, and Cisco VIC 1497 adapters using the external Ethernet interface. This release also introduces the capability to create additional vNICs and vHBAs on the adapters based on the selected port channel state.	VIC Adapter Policy
