New and Changed Information for this Release

The following table provides an overview of the significant changes to this guide for this current release. The table does not provide an exhaustive list of all changes made to this guide or of all new features in this release.

Table 1: New Features and Changed Behavior in Cisco UCS Director, Release 5.5

Feature	Description	Where Documented
Add vNIC Template task	The Add vNIC Template task has been added to the Task Library to enhance automation.	Task Library
Delete vNIC Template task	The Delete vNIC Template task has been added to the Task Library to enhance automation.	Task Library
Add VLAN to Global vNIC Template task	The Add vNIC to Global vNIC Template task has been added to the Task Library to enhance automation.	Task Library
Delete VLAN from Global vNIC Template task	The Delete vNIC from Global vNIC Template task has been added to the Task Library to enhance automation.	Task Library
Add vNIC to Global Service Profile task	The Add vNIC to Global Service Profile task has been added to the Task Library to enhance automation.	Task Library
Delete vNIC From Global Service Profile task	The Delete vNIC from Global Service Profile task has been added to the Task Library to enhance automation.	Task Library

Feature	Description	Where Documented
Select Global UCS Service Profile task	The Select Global UCS Service Profile task has been added to the Task Library to enhance automation.	Task Library
Modified **Create Global Service Profile** task	Added Server Identity to Create Global Service Profile task.	Task Library
Modified **Create Global Service Profile from Template** task	Added Server Identity to Create Global Service Profile from Template task.	Task Library
Support for 10 vNICs	Updated Network Policy screen with support for 10 vNics.	Creating a Network Policy
Support for 10 vNICs in UCS Service Profile Tasks	Added vNIC Outputs to the existing tasks under Workflow task UCSM. Tasks ask for service profile identity and provide the vNIC related outputs. Tasks affected are: **1** Select UCS service profile **2** Create UCS service profile **3** Create UCS service profile from template	Task Library
Bind UCS Central Global Service Profile vNIC to Template task	The user can select the Global service profile and the associated vNIC will be available for the selection. Then the user can select the updating vNIC template to bind the SP vNIC.	Task Library
Unbind UCS Central Global Service Profile vNIC from Template task	The user can select the Global service profile and the associated vNIC on which the unbind operation needs to be performed	Task Library
Added Input to "Associate Global Service Profile" task	Added new user input/output field for Server Pool Qualification Policy	Task Library
Added New Outputs to "Create Global Service Task"	Added new outputs	Task Library
Added New Outputs to "Create Global Service Template"	Added new outputs	Task Library
Added New Outputs to "Select UCS Global Service Profile"	Added new outputs	Task Library

Feature	Description	Where Documented
Add VLAN to Global Service Profile	Added VLAN to Global Service Profile - with or without selecting vNIC. • Common/Global VLAN • Fabric A or B or Both • any one VLAN can be set as native	Task Library
Delete VLAN from Global Service Profile	Added new task	Task Library
Add vHBA to Global Service Profile	Without template - Allow creation of a new vHBA and add it to Service Profile. With Template - Allow mapping of an existing template to Service Profile.	Task Library
Delete vHBA from Global Service Profile	Added new task	Task Library
Modify VLAN Org Permission	Added new task	Task Library
Support for 10 vHBAs	Updated Storage Policy screen with support for 10 vNics.	Creating a Storage Policy
Support for 10 vHBAs in UCS Service Profile Tasks	Added vHBA Outputs to the existing tasks under Workflow task UCSM. Tasks ask for service profile identity and provide the vHBA related outputs. Tasks affected are: 1 Select UCS service profile 2 Create UCS service profile 3 Create UCS service profile from template	Task Library

Feature	Description	Where Documented
Generic Configure SAN ZONING support added to Global Service Profile	Two new fields have been added to the task. • Service profile type: ◦ For UCS Manager and UCS Central Account selection. ◦ It's not supported in Admin Input Type. ◦ Mandatory field to which Task Execution to be decided based on this selection. • Global Service Profile: ◦ On choosing the 'Service Profile type' as 'Global Service Profile' this input field is displayed on the page and 'Service Profile' input will be hidden from the page. ◦ On choosing the 'Service Profile type' as 'Service Profile' this input field is displayed on the page and 'Global Service Profile' input will be hidden from the page.	Task Library
Added **IDUsage** tab.	Shows the ID usage utilization inventory and the tabular representation related to each domain associated to a central account.	BM Testing with the UCS Central Tasks
