

# Glossary

---

The following list describes acronyms and definitions for terms used throughout this document:

- **CPU:** Central Processing Unit
- **DOCSIS:** Data Over Cable Service Interface Specification
- **FPGA:** Field Programmable Gate Array
- **HFC:** Hybrid Fiber-Coax
- **IAM:** Intelligent Amplifier Module
- **IFAM:** Intelligent Forward Amplifier Module
- **IRAM:** Intelligent Reverse Amplifier Module
- **iNode:** Intelligent Node
- **iRPD:** Intelligent Remote PHY Device
- **LCS:** Local Control Software
- **MCU:** Microprocessor Control Unit
- **MIB:** Management Interface Base
- **OIB:** Optical Interface Board
- **RPHY:** Remote PHY
- **USB:** Universal Serial Bus
