

# Documentation Guide for Cisco Show and Share, Release 5.3.x

---

Revised: February 28, 2013

## Supported Appliances

This documentation roadmap supports these Cisco Show and Share and Digital Media Manager (DMM) appliances:

- Cisco Show and Share on MXA UCS M3 appliance, Release 5.3.10
- Cisco Show and Share on UCS 210-M2 appliance, Release 5.3.x
- Cisco Show and Share on UCS 200-M2 appliance, Release 5.3.x
- Cisco Show and Share on MCS 7835-H3 appliance, Release 5.3.x
- Cisco Show and Share on WAVE-574 appliance, Release 5.3.x
- Cisco DMM on MCS 7835-H3, Release 5.3.x
- Cisco DMM on UCS C210 (DMM-SVR-C210-K9), Release 5.3.x

You can use this link to access all Cisco Show and Share Release 5.3.x product documentation:

[http://www.cisco.com/en/US/products/ps6682/tsd\\_products\\_support\\_series\\_home.html](http://www.cisco.com/en/US/products/ps6682/tsd_products_support_series_home.html)

For Cisco Show and Share Release 5.2.x and earlier, see this documentation roadmap:

[http://www.cisco.com/en/US/docs/video/digital\\_media\\_systems/roadmaps/dmsmap515253.html](http://www.cisco.com/en/US/docs/video/digital_media_systems/roadmaps/dmsmap515253.html)

Cisco Digital Media Suite (DMS) Release 5.4 is for digital signage users exclusively. It cannot pair with or manage a Cisco Show and Share appliance. Cisco DMS Release 5.4 includes new and changed features that do not apply to Show and Share. For more information, see the [Release Notes for Cisco Digital Media Suite 5.4.x](#).

# Documentation—Listed by Task

Table 2 identifies high-level tasks and the supporting documentation.

**Table 2** Cisco Show and Share Documentation—Listed by Task

Task	Document
Configure Cisco DMM and Cisco Show and Share appliances through the Appliance Administrative Interface (AAI). Use AAI to: <ul style="list-style-type: none"> <li>• Configure basic appliance settings and control appliance services</li> <li>• Back up and restore appliance configurations</li> <li>• Change appliance network settings</li> <li>• Configure system time, recover passwords, and manage failover settings</li> <li>• Pair the appliances</li> </ul>	<a href="#">Administration Guide for Cisco Digital Media Suite 5.3.x Appliances</a>
Configure Show and Share: <ul style="list-style-type: none"> <li>• Set up file hosting locations</li> <li>• Manage user access and permissions</li> <li>• Manage publishing workflow, categories, content, featured videos, and tickers</li> <li>• Manage system-wide preferences, settings, and generate reports</li> <li>• Integrate other devices with Show and Share</li> <li>• Configure a Cisco MXE for video transcoding</li> <li>• Enable mobile application access<sup>1</sup></li> <li>• Enable the Pulse video analytics feature set<sup>1</sup></li> <li>• Configure failover and manage backup and restore</li> </ul>	<a href="#">Administrator Guide for Cisco Show and Share 5.3.x</a>
How to use Show and Share: <ul style="list-style-type: none"> <li>• Access, sign in, and configure personal preferences</li> <li>• Browse, search, and play featured and public videos</li> <li>• Comment, tag, and share videos</li> <li>• Edit and publish videos</li> <li>• Create, add, and manage videos</li> <li>• Create and administer a live event</li> <li>• Use author reports</li> </ul>	<a href="#">User Guide for Cisco Show and Share 5.3.x</a>
Use the application programming interface (API) to build custom user interfaces, workflows, and vertical-specific applications that extend Cisco Show and Share.	<a href="#">API Programmer Guide for Cisco Show and Share Release 5.2.3 and 5.3</a>

**Table 2 Cisco Show and Share Documentation—Listed by Task (continued)**

<b>Task</b>	<b>Document</b>
Integrate Cisco MXE 3500 with Cisco TelePresence Content Server (TCS) and Cisco Show and Share to automate the transforming and sharing of recorded content.	<a href="#">Capture Transform Share: How to Configure Cisco TCS and MXE 3500 for Automated Transcoding and Forwarding to Cisco Show and Share</a>
Integrate Cisco TelePresence Content Server (TCS) with Show and Share and DMM appliances for WMV streaming: <ul style="list-style-type: none"> <li>• Configure Cisco TCS, Cisco MXE 3500 and Cisco DMM to enable a live stream from Cisco TCS for sharing on a Cisco DMP</li> <li>• Configure Cisco MXE 3500 and Show and Share to enable transcoding and Pulse video analytics for videos uploaded to Show and Share</li> <li>• Configure Cisco TCS and Show and Share to view a live event stream from Cisco TCS</li> <li>• Configure Cisco TCS to share a VOD on Show and Share that was captured on Cisco TCS</li> </ul>	<a href="#">Capture Transform Share: How to Configure Cisco TCS for WMV Streaming to Cisco Show and Share and DMP</a>
Integrate Show and Share with: <ul style="list-style-type: none"> <li>• Cisco MXE 3500</li> <li>• Cisco TCS</li> <li>• Cisco ECDS</li> </ul>	<a href="#">Integration Notes for Cisco Show and Share</a>
Quick start videos that describe how to navigate and use the Show and Share user interface.	<a href="#">Cisco Show and Share 5.2.3 and 5.3 Video Tutorials</a>
How to perform the first boot process and initial configuration of the Cisco Digital Media Suite (DMS) components.	<a href="#">Quick Start Guide for Cisco Digital Media Suite 5.3.x</a>
How to install and use the Show and Share mobile client application.	<a href="#">Cisco Show and Share 5.3 Mobile Client User Guide</a>
Manage Show and Share webcasting and video sharing application security vulnerabilities.	<a href="#">Cisco Show and Share Security Vulnerabilities</a>
Understand Show and Share compatibility requirements for Cisco DMS appliances.	<a href="#">Compatibility Information for Cisco Digital Media Suite (including Show and Share)</a>
Configure Show and Share and an external web server running Wowza Media Server for on-demand and live Flash media streaming.	<a href="#">Configuring Cisco Show and Share for Streaming Flash from a Wowza Media Server</a>
Configure failover on a new Show and Share installation and how to add failover to an existing installation.	<a href="#">Failover Configuration Guide for Cisco Digital Media Suite 5.3.x</a>
Understand Show and Share licensing and open source software.	<a href="#">Licensing Information and Open Source Used In Cisco Show and Share 5.3</a>

**Table 2** Cisco Show and Share Documentation—Listed by Task (continued)

Task	Document
Quick start guide and release notes that describe the hardware and software features of Show and Share Release 5.3.10 on Cisco MXA UCS M3 appliance.	<a href="#">Quick Start Hardware Installation Guide for Cisco Show and Share Release 5.3.10 on Cisco MXA UCS M3 Server</a> <a href="#">Release Notes for Cisco Show and Share and Digital Media Manager on the MXA UCS M3 Server</a>
Review new and changed features, requirements, and known problems for Cisco DMS 5.3.x products.	<a href="#">Release Notes for Cisco Digital Media Suite 5.3.x</a>
How to migrate to a Cisco MXA UCS M3 appliance running Release 5.3.10. You can migrate these models running Release 5.3.0: <ul style="list-style-type: none"><li>• UCS 210-M2</li><li>• UCS 200-M2</li><li>• MCS 7835-H3</li><li>• WAVE-574</li></ul>	<a href="#">Server Platform Migration Guide for Cisco Show and Share and Cisco Digital Media Manager Release 5.3</a>
How to upgrade Cisco DMS from version 5.2.3 to 5.3.	<a href="#">Upgrade Guide for Cisco Digital Media Suite Release 5.3</a>
How to upgrade from Cisco Show and Share Release 5.3 to 5.3 Patch 1	<a href="#">Upgrade Guide for Cisco Show and Share Release 5.3 to Release 5.3 Patch 1</a>

1. Requires Show and Share integrated with Cisco MXE 3500 running Release 3.3 software.

## Providing Documentation Feedback

To provide feedback on Cisco MXE 3500 documentation, or to report an error or omission, you can use the online, Embedded Feedback form. The form appears when you click the “Give us Feedback” link that is located at the top right of each chapter in a guide or standalone document.

You can also send feedback to [mx-e-doc@cisco.com](mailto:mx-e-doc@cisco.com). Please include the title of the document.

---

# Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as an RSS feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service. Cisco currently supports RSS Version 2.0.
