

Preface

This chapter contains the following sections:

- [What's in This Guide, page 11](#)
- [Audience, page 11](#)
- [Document Revision History, page 11](#)
- [Document Organization, page 12](#)
- [Document Conventions, page 12](#)
- [Related Documentation, page 13](#)
- [Obtaining Documentation and Submitting a Service Request, page 13](#)

What's in This Guide

This guide describes how to configure and maintain the Cisco Enterprise Content Delivery System (ECDS) software using command-line interface (CLI) commands.

Audience

This guide is for the networking professional using Cisco ECDS Release 2.6; you should have experience working with the Cisco ECDS and be familiar with the concepts and terminology of Ethernet and local area networking.

Document Revision History

[Table 1](#) describes document update history.

Table 1 *Document Revision History*

Date	Change Summary
February 2011	Initial release.
August 2012	Support for ECDS Releases up to 2.5.5.
November 2013	Support for ECDS Releases up to 2.6

Table 1 **Document Revision History**

Date	Change Summary
May 2014	Support for ECDS Releases up to 2.6
June 2015	Support for ECDS Releases up to 2.6

Document Organization

Table 2 lists the chapters in this guide.

Table 2 **Document Organization**

Chapter	Description
Chapter 1, “Command-Line Interface Command Summary”	How to use the Cisco ECDS CLI to configure software features.
Chapter 2, “Cisco ECDS Software Commands”	Provides a complete list of Cisco ECDS commands listed alphabetically.
Appendix A, “Acronyms”	Lists the abbreviations and acronyms used in this guide.
Appendix B, “Standard Time Zones”	Lists supported standard time zones that you can configure on the Cisco Media Delivery Engine (MDE) and the offset from coordinated universal time (UTC) for each standard time zone.

Document Conventions

Table 3 lists conventions used to convey instructions and information.

Table 3 **Document Conventions**

Convention	Description
boldface font	Commands, keywords, and button names are in boldface .
<i>italic</i> font	Variables for which you supply values are in <i>italics</i> . Directory names and filenames are also in italics.
screen font	Terminal sessions and information the system displays are in screen font.
boldface screen font	Information you must enter is in boldface screen font.
<i>italic screen</i> font	Variables you enter are in <i>italic screen</i> font.
^	The symbol ^ represents the key labeled Control. For example, the key combination ^D in a screen display means hold down the Control key while you press the D key.
string	Defined as a nonquoted set of characters. For example, when setting a community string for SNMP to “public,” do not use quotation marks around the string, or the string will include the quotation marks.

Table 3 **Document Conventions**

Convention	Description
vertical bars ()	Vertical bars separate alternative, mutually exclusive, elements.
{ }	Elements in braces are required elements.
[]	Elements in square brackets are optional.
{x y z}	Required keywords are grouped in braces and separated by vertical bars.
[x y z]	Optional keywords are grouped in brackets and separated by vertical bars.
[{ }]	Braces within square brackets indicate a required choice within an optional element.
< >	Nonprinting characters, such as passwords or tabs, are in angle brackets.

Notes, cautions, and warnings use these conventions and symbols:

Note

Means *reader take note*. Notes contain helpful suggestions or references to materials not contained in this manual.

Caution

Means *reader be careful*. In this situation, you might do something that could result in equipment damage or loss of data.

Related Documentation

For complete document support for the Cisco Media Delivery Engine appliances and the Cisco Enterprise Content Delivery System, see the [Documentation for the Enterprise Content Delivery System \(ECDS\)](#) document roadmap at the following link:

<http://www.cisco.com/en/US/docs/video/ecds/documentation.html>

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as a Really Simple Syndication (RSS) feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service and Cisco currently supports RSS version 2.0.
