Deployment Architecture

Deployment Diagram

The following diagram illustrates the architecture of a typical Cisco UC Integration for Microsoft Lync deployment.
Deployment Components

The following list describes the components of a typical deployment:

**Desk phone**

Connects to Cisco Unified Communications Manager for signaling and configuration.

**Cisco Unity Connection**

Provides voicemail capabilities.

**Cisco Unified Communications Manager**

- Provides audio and video call management capabilities.
- Provides user and device configuration settings.
- Connects to the directory for user synchronization and user authentication.

**Directory**

One of the following types of directory:

- Microsoft Active Directory
- LDAP directory
