

CHAPTER 72

Deleting Trust Group Configuration

Use this procedure to delete Trust Group from the Cisco Unified Communications Manager database.

Before You Begin

1. Create a text file that lists the Name for the Trust Group that you want to delete:
2. Upload the custom files to the Cisco Unified Communications Manager server first node. See [“Uploading a File” section on page 2-3](#).

To delete Trust Group that are listed in a custom file, use the following procedure.

Note Do not use the insert transaction files that are created with bat.xlt for the delete transaction. Instead, you must create a custom file with details of the Trust Group records that need to be deleted. Use only this file for the delete transaction. In this custom delete file, you do not need a header, and you can enter values for name, description, Group type, or Cisco Link Route Filter Group Profile.

Procedure

- Step 1** Choose **Bulk Administration > Intercompany Media Services > Trust Group > Delete Trust Group**.
The Delete Trust Group Configuration window displays.
- Step 2** From the Delete Trust Group where Name in custom file drop-down list box, choose the filename of the custom file for this delete.
- Step 3** Click **Find**.
- Step 4** The Trust Group matching your search criteria displays.
- Step 5** Click **Submit** to create a job to delete the Trust Group.

Use the Job Scheduler option in the Bulk Administration main menu to schedule and/or activate this job. For more information on jobs, see the [Chapter 82, “Scheduling Jobs.”](#)

For information on log files, see [“BAT Log Files” section on page 83-3](#).
