Purpose

The *Command Line Interface Reference Guide for Cisco Unified Communications Solutions* provides information about all the commands supported on the IM and Presence service, Cisco Unified Communications, and Cisco Unity Connection. Every command includes an "Applies to" section identifying applicable products.

Audience

The *Command Line Interface Reference Guide for Cisco Unified Communications Solutions* provides information to execute specific commands for network administrators responsible for managing and supporting IM and Presence, Cisco Unified Communications Manager, and Cisco Unity Connection.

Organization

The following table shows the organization for this guide:

Table 1: Organization of Command Line Interface Reference Guide for Cisco Unified Communications Solutions

| Chapter | Description |
|------------------|---|
| About CLI | Provides information about the CLI and tips to help make the management of the products easier to navigate. |
| Delete commands | Lists all commands relating to the removal of specific information. |
| File commands | Lists all commands relating to the management of files and logs. |
| License commands | Lists all commands relating to licensing. |

| | |
|----------------|---|
