Access Cisco Unified CM IM and Presence Administration

Complete the following procedure to access the Cisco Unified CM IM and Presence Administration interface.

Procedure

- Step 1** Open a browser and enter `https://<server name or IP address>`, where the server name or IP address equals the server where the IM and Presence Service is installed.
 - Step 2** From Administrative Applications, select Cisco Unified Communications Manager IM and Presence.
 - Step 3** If the system prompts you about certificates, you must enable HTTPS to secure communications between the browser client and the web server. See the *Release Notes for Cisco Unified Communications Manager* for more information about how to load the required certificates for the HTTPS connection.
 - Step 4** Enter the application username and application user password that you specified during installation when the system prompts you for a user name and password. The Cisco Unified CM IM and Presence Administration interface displays.
 - Step 5** To access other IM and Presence interfaces, select an interface from the Navigation drop-down list and select **Go**.
