Additional Options

Your system administrator can configure your Cisco Unified IP Conference Phone 8831 and 8831NR to use specific button and softkey templates along with special services and features, if appropriate. This table provides an overview of some configuration options that you might want to discuss with your administrator based on your calling needs and work environment.

If You...	Then...	For More Information...
Need to handle more calls on the conference station line	Ask your administrator to configure your line to support more calls. **Note** Your conference station supports a maximum of 6 calls.	Contact your administrator or phone support team.
Need more speed dial entries	First make sure that all your speed dial entries are assigned. If you need additional speed dials, try using abbreviated dials or fast dials.	See Speed Dial
Want to use one extension for several phones	Request a shared line. This allows you, for example, to use one extension for your desk phone and lab phone.	See Shared Lines

If You...	Then...	For More Information...
Share conference stations or office space with coworkers	Consider using: • Call Park to store and retrieve calls without using the transfer feature. • Call Pickup to answer calls ringing on another phone. • A shared line to view or join coworkers' calls. • Cisco Extension Mobility to apply the conference station number and user profile to a shared conference station.	Contact your administrator about these features and see the following: • Call Park • Call Pickup • Shared Lines • Cisco Extension Mobility
Want to temporarily apply the conference station number and settings to a shared conference station	Ask your administrator about the Cisco Extension Mobility Service.	See Cisco Extension Mobility
Want to extend the area covered by audio	Ask your administrator about: • Linking to another Conference Station sound base • Adding a Wireless Extension Microphone Kit • Adding a Wired Extension Microphone Kit **Note** The Cisco Unified IP Conference Phone 8831NR does not support wireless microphones.	See • Linked Mode • Enhanced Room Coverage
