Viewing a List of Groups

Important

You cannot modify the default group and associated capabilities. You can only associate the non-default group with one or more newly created privileges.

You cannot associate the default or non-default group as a member of a non-default group.

You can delete the non-default group only on unsubscribing all the users who are subscribed as its members.

Step 1

Choose **Configure > Groups**.

The system displays the Configure Groups page, containing the following fields:

- Group ID
- Display Name
- Primary Extension
- Privileges

Step 2

To see a different number of groups on each page, choose another number from the drop-down box on the top right and click **Go**. You can choose to see 10, 25, 50, 100, or all groups.

- Step 3** To move to another page, use the left and right arrow buttons on the bottom right, or enter another page number and press **Enter**.
- Step 4** To sort groups, click any of the headers.

Group Fields

The table lists the fields on the page.

Table 1: Group Parameters

Parameter	Description
Group ID	Alphanumeric user identifier.
Full name	Long name of the group as it should appear on telephone displays.
Description	Description of the group. The word “group” is automatically added to the Group ID entry.
Primary Extension	Primary extension of the group.
Primary E.164 Number	Associates a full telephone number and area code with this group.
Fax Number	Associates a fax number with this group.

Modifying Group Ownership and Membership in Other Groups

A group has its own set of members, but a group can also be assigned as a member or an owner of one or more other groups. If a group is assigned as an owner of another group, any individual member of the owner group has privileges as an owner of the owned group. For example, if the Administrator group is added as an owner of the Technical Support group, any individual member of the Administrator group can add, modify, or delete members of the Technical Support group. Additionally, individual users that do not belong to another group can be added as owners of the Technical Support group.

SUMMARY STEPS

1. Choose **Configure > Groups**.
2. Click the name of the group whose membership you want to modify.
3. Click the **Owner/Member of Groups** tab.
4. To see a different number of groups on each page, on the top right, choose another number from the drop-down box and click **Go**. You can choose to see 10, 25, 50, 100, or 500 groups.
