

# Cisco Unified SRST/E-SRST 11.6 Supported Firmware, Platforms, Memory, and Voice Products

Cisco Unified Survivable Remote Site Telephony (SRST)/Enhanced SRST (E-SRST) 11.6 Supported Firmware, Platforms, Memory, and Voice Products

First Published: November 30, 2016

Revised: November 30, 2016

About Cisco Unified SRST and E-SRST 11.6	
Documentation	See <a href="#">Cisco Unified SRST</a> .
Secure SRST	See <a href="#">Setting Up Secure SRST</a> . Cisco Unified Communications Manager 4.1(2) or a later version is required for secure Cisco Unified SRST. Secure E-SRST is not supported.
Secure SRST Specifications	See the <a href="#">Media and Signaling Authentication and Encryption Feature</a> for Cisco IOS MGCP Gateways for complete specifications.
Cisco IOS Compatibility	To see a list of Cisco IOS releases that support Cisco Unified SRST, see the <a href="#">Cisco Unified CME Compatibility Matrix</a> . Cisco Unified SRST is compatible with the same Cisco IOS releases as Cisco Unified CME.
Downloads	To download Cisco Unified SRST software, go to <a href="#">Technical Support Software Download</a> for Cisco Unified CME and Cisco Unified SRST.  Cisco Unified SRST supports Cisco Unified Communications Manager firmware. For more information, see the <a href="#">Cisco Unified Communications Manager Compatibility Matrix</a> .  You can download firmware files from <a href="#">Technical Support Software Center</a> for Voice Software.
DDTS Information	To obtain the latest Cisco Unified SRST DDTS information, go to <a href="#">Bug Toolkit</a> and search, by product, under Cisco Survivable Remote Site Telephony.

\* Memory recommendations and maximum numbers of IP phones are for common Cisco SRST configurations only. Systems with large numbers of phones and complex configurations may not work on all platforms and can require additional memory or a higher performance platform.

\*\* The Maximum Total IP Phones can be split between SCCP and SIP phones as long as the maximum total of IP phones is not exceeded.

\*\*\*\* SRST 880 is natively supported by CUCM 6.13 and 7.1.

To get the same number of SIP IP phones support as SCCP IP Phones, SRST 4.1 in 12.4(15)T is required.
