Send the customer a reply to let them know that you did not receive the email attachments. You can also indicate why the attachments could not be downloaded and ask the customer to resend.

## Images in Customer Email Do Not Appear

A customer includes an image within the body of an email message. The image does not appear in the email message when you view it in Finesse. This problem can occur because of the differences in how images are handled by different email clients.

No error appears in Finesse when this occurs. However, a customer may ask if you received the picture they sent or something similar.

**What to do?**

Let the customer know that you did not receive the image. Ask the customer to resend it as an attachment.
