Deployment and Installation Workflow for an On-Premises Deployment

Procedure

	Command or Action	Purpose
Step 1	Read the Cisco Jabber Planning Guide located at http://www.cisco.com/c/en/us/support/unified-communications/jabber-windows/products-installation-guides-list.html.	• Choose your deployment scenario. • Review requirements to confirm that you meet them. • Review contact sources to determine which contact source you will use.
Step 2	Configure Directory Integration for an On-Premises Deployment.	
Step 3	Configure Certificates for an On-Premises Deployment.	Certificates are required for each service to which the Jabber clients connect.
Step 4	Configure Service Discovery.	
Step 5	Configure a Service Profile.	
Step 6	Configure IM and Presence Service for an On-Premises Deployment.	
Step 7	Configure Voice and Video Communications for On-Premises Deployments.	
Step 8	Complete one of the following:	

	Command or Action	Purpose
	• Configure Voicemail for an On-Premises Deployment with Cisco Unified Communications Manager Release 9.x and Later. • Configure Voicemail for an On-Premises Deployment with Cisco Unified Communications Manager Release 8.6.	
Step 9	Configure Conferencing for an On-Premises Deployment.	
Step 10	Configure the Clients	
Step 11	Install the Clients	

Deployment and Installation Workflow for Phone Mode

Procedure

	Command or Action	Purpose
Step 1	Read the Cisco Jabber Planning Guide located at http://www.cisco.com/c/en/us/support/unified-communications/jabber-windows/products-installation-guides-list.html.	• Choose your deployment scenario. • Review requirements to confirm that you meet them. • Review contact sources to determine which contact source you will use.
Step 2	Configure Directory Integration for an On-Premises Deployment.	
Step 3	Configure Certificates for an On-Premises Deployment.	Certificates are required for each service to which the Jabber clients connect.
Step 4	Configure Service Discovery.	
Step 5	Configure a Service Profile.	
Step 6	Configure Voice and Video Communications for On-Premises Deployments.	
Step 7	Complete one of the following: • Configure Voicemail for an On-Premises Deployment with Cisco Unified Communications Manager Release 9.x and Later. • Configure Voicemail for an On-Premises Deployment with Cisco Unified Communications Manager Release 8.6.	

	Command or Action	Purpose
Step 8	Configure Conferencing for an On-Premises Deployment.	
Step 9	Configure Conferencing	
Step 10	Configure the Clients	
Step 11	Install the Clients	

Deployment and Installation Workflow for a Cloud-Based Deployment

Procedure

	Command or Action	Purpose
Step 1	Read the Cisco Jabber Planning Guide located at http://www.cisco.com/c/en/us/support/unified-communications/jabber-windows/products-installation-guides-list.html.	• Choose your deployment scenario. • Review requirements to confirm that you meet them. • Review contact sources to determine which contact source you will use.
Step 2	Configure Directory Integration	
Step 3	Set Up Certificate Validation	
Step 4	Configure Service Discovery	
Step 5	Configure a Service Profile	
Step 6	Configure IM and Presence Service for Cloud-Based Deployments
