

# Release Notes for Cisco Business Mobile app, Version 1.1.3

**First Published: 2021-10-27** 

## Introduction

These release notes describe the recommended practices and known issues that apply to software version 1.1.3 of the Cisco Business Mobile app.

## What's New in Cisco Business Mobile app Version 1.1.3

Cisco Business Mobile app version 1.1.3 introduces the following new features and changes:

- Support has been added to the user interface for the following languages:
  - · Simplified Chinese
  - French
  - German
  - Japanese
  - · Spanish

## **System Requirements for Cisco Business Mobile app**

The Cisco Business Mobile app is supported for Apple iOS-based devices running iOS version 13.0 and above. The following devices may be managed by the Cisco Business Mobile app:

- Cisco Business 220 Series Smart Switches
- Cisco Business 250 Series Smart Switches
- Cisco Business 350 Series Managed Switches
- Cisco Business 100 Series Access Points
- Cisco Business 100 Series Mesh Extenders
- Cisco Business 200 Series Access Points

Note

Cisco Business 350 Series switches with 10Gb Ethernet switch ports and a dedicated out of band (OOB) management port are not able to be installed and configured using the app. Affected models include: CBS350-8XT, CBS350-12XT, CBS350-24XT, CBS350-48XT-4X, CBS350-12XS, CBS350-12XS, CBS350-16XTS, and CBS350-24XTS.

## **Limitations and Restrictions**

The Cisco Business Mobile app is subject to the following limitations and restrictions:

- For devices to be managed by the Cisco Business Mobile app, they must be in an unconfigured state before being added to the site and configured by the app. If a device has been previously configured by any means, it should be reset back to an unconfigured state (factory default) before it is used by the app.
- The Cisco Business Mobile app is not currently optimized for the iPad. The app may be used with an iPad, but will operate in iPhone compatibility mode.

### Caveats for Release 1.1.3

#### **Resolved Caveats**

Release Date: October 2021

No new caveats have been resolved in this release.

## **Caveats for Release 1.0.24**

#### **Resolved Caveats**

Release Date: July 2021
