Revision Details	Release
First introduced.	21.12.2

Feature Description

With this release, MME is enabled to exclude SGW during SGW relocation procedures. When an entry is configured with exclude option it will not be considered as a target candidate for SGW relocation procedures.

Configuration to Exclude SGWs During Relocation Procedures

This section provides information on the CLI commands to exclude SGWs during relocation procedures in the MME.

attach-only

Use the following configuration to exclude the SGWs during relocation procedures.

attach-only: Specifies the SGW preference for SGW-relocation.

Monitoring and Troubleshooting

This section provides information regarding show commands available to monitor and troubleshoot this feature.

Show Commands and Outputs

show Ite-policy tai-mgmt-db name

The output of this command includes "attach-only".

Note

Show output "attach-only" appears more than once based on the number of times it is configured.
