

About This Guide

This preface describes the SaMOG Administration Guide, how it is organized, and its document conventions.

The guide provides information on the SaMOG (S2a-based Mobility over GTP) Gateway and includes network deployments and interfaces, feature descriptions, session establishment and disconnection flows, configuration instructions, and CLI commands for monitoring the system.

- Conventions Used, on page i
- Supported Documents and Resources, on page iii
- Contacting Customer Support, on page iii

Conventions Used

The following tables describe the conventions used throughout this documentation.

Notice Type	Description
Information Note	Provides information about important features or instructions.
Caution	Alerts you of potential damage to a program, device, or system.
Warning	Alerts you of potential personal injury or fatality. May also alert you of potential electrical hazards.
Typeface Conventions	Description
Text represented as a screen display	This typeface represents displays that appear on your terminal screen, for example: Login:
Text represented as commands	This typeface represents commands that you enter, for example:
	show ip access-list
	This document always gives the full form of a command in lowercase letters. Commands are not case sensitive.

Typeface Conventions	Description
Text represented as a command <i>variable</i>	This typeface represents a variable that is part of a command, for example:
	<pre>show card slot_number</pre>
	<i>slot_number</i> is a variable representing the desired chassis slot number.
Text represented as menu or sub-menu names	This typeface represents menus and sub-menus that you access within a software application, for example:
	Click the File menu, then click New
Command Syntax Conventions	Description
{ keyword or variable }	Required keyword options and variables are those components that are required to be entered as part of the command syntax.
	Required keyword options and variables are surrounded by grouped braces { }. For example:
	<pre>sctp-max-data-chunks { limit max_chunks</pre>
	If a keyword or variable is not enclosed in braces or brackets, it is mandatory. For example:
	snmp trap link-status
[keyword or variable]	Optional keywords or variables, or those that a user may or may not choose to use, are surrounded by brackets.
	Some commands support multiple options. These are documented within braces or brackets by separating each option with a vertical bar.
	These options can be used in conjunction with required or optional keywords or variables. For example:
	<pre>action activate-flow-detection { intitiation termination }</pre>
	or
	<pre>ip address [count number_of_packets size number_of_bytes]</pre>

Supported Documents and Resources

Related Common Documentation

The most up-to-date information for this product is available in the product Release Notes provided with each product release.

The following common documents are available:

- AAA Interface Administration and Reference
- Command Line Interface Reference
- GTPP Interface Administration and Reference
- Installation Guide (platform dependent)
- Release Change Reference
- SNMP MIB Reference,
- Statistics and Counters Reference
- System Administration Guide (platform dependent)
- Thresholding Configuration Guide

Related Product Documentation

The following product documents are also available and work in conjuction with SaMOG:

- ECS Administration Guide
- GGSN Administration Guide
- SGSN Administration Guide
- S-GW Administration Guide
- P-GW Administration Guide
- MME Administration Guide
- NAT Administration Guide

Obtaining Documentation

The most current Cisco documentation is available on the following website:

Use the following path selections to access the SaMOG documentation:

Products > Wireless > Mobile Internet> Network Functions > Cisco SaMOG S2a Mobility over GTP

Contacting Customer Support

Use the information in this section to contact customer support.

Refer to the support area of http://www.cisco.com for up-to-date product documentation or to submit a service request. A valid username and password are required to access this site. Please contact your Cisco sales or service representative for additional information.
