

About this Guide

This preface describes the *AAA Interface Administration and Reference*, how it is organized and its document conventions.

Authentication, Authorization, and Accounting (AAA) is a StarOS™ service that runs on Cisco® ASR 5500 and virtualized platforms.

This document provides information on basic AAA features, and how to configure the AAA interface to enable AAA functionality for your core network service subscribers in a wireless carrier network.

- [Conventions Used, on page 1](#)
- [Supported Documents and Resources, on page 2](#)
- [Contacting Customer Support , on page 3](#)

Conventions Used

The following tables describe the conventions used throughout this documentation.

Icon	Notice Type	Description
	Information Note	Provides information about important features or instructions.
	Caution	Alerts you of potential damage to a program, device, or system.
	Warning	Alerts you of potential personal injury or fatality. May also alert you of potential electrical hazards.

Typeface Conventions	Description
Text represented as a screen display	This typeface represents displays that appear on your terminal screen, for example: Login :

Typeface Conventions	Description
Text represented as commands	This typeface represents commands that you enter, for example: show ip access-list This document always gives the full form of a command in lowercase letters. Commands are not case sensitive.
Text represented as a command variable	This typeface represents a variable that is part of a command, for example: show card slot_number <i>slot_number</i> is a variable representing the desired chassis slot number.
Text represented as menu or sub-menu names	This typeface represents menus and sub-menus that you access within a software application, for example: Click the File menu, then click New

Supported Documents and Resources
