#### Revision History

Revision Details	Release
Tariff-Time-Change AVP is supported in fast path.	<ul style="list-style-type: none"><li>• 21.25.4</li><li>• 21.20.22</li></ul>

### Feature Changes

**Previous Behavior:** When the Tariff-Time-Change AVP was received from Gy for a Rating Group, traffic was switched to the slowpath and thus slowed down user's traffic.

**New Behavior:** When the Tariff-Time-Change AVP is received from Gy for a Rating Group, traffic continues to flow in the fast path and maintains the user's traffic rate.

**Customer Impact:** End-user will receive seamless traffic.
