

Preface

This preface contains the following sections:

- Conventions
- Related Documentation
- Obtaining Documentation and Submitting a Service Request

Conventions

This guide uses the following conventions:

Convention	Indication
bold font	Commands and keywords and user-entered text appear in bold font.
italic font	Document titles, new or emphasized terms, and arguments for which you supply values are in <i>italic</i> font.
[]	Elements in square brackets are optional.
$\{x \mid y \mid z\}$	Required alternative keywords are grouped in braced and separated by vertical bars.
$[x \mid y \mid z\}$	Optional alternative keywords are grouped in braced and separated by vertical bars.
string	A nonquoted set of characters. Do not use quotation marks around the string or the string will include the quotation marks.
courier font	Terminal sessions and information the system displays appear in courier font
\Leftrightarrow	Nonprinting characters such as passwords are in angle brackets.
[]	Default responses to system prompts are in square brackets.
!, #	An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line.

Table 1 Conventions

Means reader take note

Means the following information will help you solve a problem.

Caution

Means reader be careful. In this situation, you might do something that can result in equipment damage or loss of data.

This warning symbol means danger. You are in a situation that could cause bodily injury. Before you work on any equipment, be aware of the hazards involved with electrical circuitry and be familiar with standard practices for preventing accidents. (To see translations of the warnings that appear in this publication, refer to the appendix "Translated Safety Warnings.")

Related Documentation
