

## Preface

---

The Cisco Industrial Wireless (IW) Monitor guide provides instructions on using the IW Monitor platform for monitoring and managing industrial wireless networks.

This guide includes:

- [Cisco Industrial Wireless monitor, on page i](#)
- [Related Documentation, on page i](#)
- [Communications, Services, and Additional Information, on page i](#)

## Cisco Industrial Wireless monitor

The Cisco Industrial Wireless (IW) Monitor is an on-premises tool that manages and displays real-time data and situational alerts from all Ultra-Reliable Wireless Backhaul (URWB) devices and Cisco Wireless devices with URWB enabled.

It supports the monitoring and maintenance of multiple types of URWB and WiFi-integrated wireless devices, and provides management capabilities for both IW and Fluidmesh (end-of-life notification [announced](#)) devices.

## Related Documentation

For more details about Regulatory Compliance and Safety Information, see [Regulatory Compliance and Safety Information](#).

## Communications, Services, and Additional Information

This topic provides links and information for Cisco communications, services, support, and feedback resources.

- To receive timely, relevant information from Cisco, sign up at [Cisco Profile Manager](#).
- To get the business impact you're looking for with the technologies that matter, visit [Cisco Services](#).
- To submit a service request, visit [Cisco Support](#).
- To discover and browse secure, validated enterprise-class apps, products, solutions, and services, visit [Cisco DevNet](#).
- To obtain general networking, training, and certification titles, visit [Cisco Press](#).

- To find warranty information for a specific product or product family, access [Cisco Warranty Finder](#).

### **Cisco Bug Search Tool**

[Cisco Bug Search Tool](#) (BST) is a gateway to the Cisco bug-tracking system. This system maintains a comprehensive list of defects and vulnerabilities in Cisco products and software. The BST provides detailed defect information about your products and software.

### **Documentation Feedback**

To provide feedback about Cisco technical documentation, use the feedback form available in the right pane of every online document.
