Control Center Interface

Control Center Interface Overview

The Control Center Interface enables you to manage subscribers and perform various operations to get information about subscribers, track subscriber sessions, to construct and populate custom reference data tables and so on.

Control Center Interface Users And Roles

CPS enables users to be aware of its current privileges while accessing Control Center as described below:

- If a user has read-write privilege then "ADMIN" is displayed adjacent to user name in the GUI.
- If a user has read-only privilege then "READONLY" is displayed adjacent to user name in the GUI.
