CHAPTER 1

Cisco Spaces

- [Cisco Spaces, on page 1](#)
- [Product Capabilities, on page 1](#)

Cisco Spaces

Cisco Spaces is a multichannel engagement platform that enables you to connect, know, and engage with visitors at their physical business locations. Cisco Spaces is the industry's most scalable end-to-end indoor location services cloud platform that empowers customers to achieve business outcomes at scale. With its comprehensive suite of services, it offers a robust solution for all your location-based needs.

Product Capabilities

Cisco Spaces is a comprehensive platform that transforms buildings into intelligent, connected environments. By seamlessly connecting people, devices, and physical spaces, it leverages the power of Cisco hardware and sensors, including Catalyst and Meraki, to enable safer, smarter, and more sustainable buildings while delivering seamless, engaging experiences for everyone inside.

Cisco Spaces unified location cloud takes input from multiple sensors, processes and cleanses the data, provides toolkits to act on this data, and makes this data accessible to deliver business outcomes.

CHAPTER 2

Q2 Release Notes

This release note includes feature updates and issues addressed for the current quarter, November 2025 to January 2026.

- [What's New in this Release, on page 5](#)
- [What's Changed in this Release, on page 7](#)
- [Issues, on page 9](#)

What's New in this Release

These new features are introduced in Cisco Spaces:

Cisco Spaces: Home UI

The **Home** page has been redesigned with an improved Cisco Spaces dashboard to enhance user experience and simplify navigation.

Key updates include:

- A new tab structure for Cisco Spaces apps to streamline navigation and easy accessibility.
- App overviews now highlight the value, key personas, and provide quick setup guides.
- A feature to mark the apps as favorites. Click **Add to Favorites** (heart-shaped icon) displayed on the app tile to add them as favorites. A new section, **Favorite Apps**, is displayed with the apps marked as favorites.

Figure 1: Home Old UI

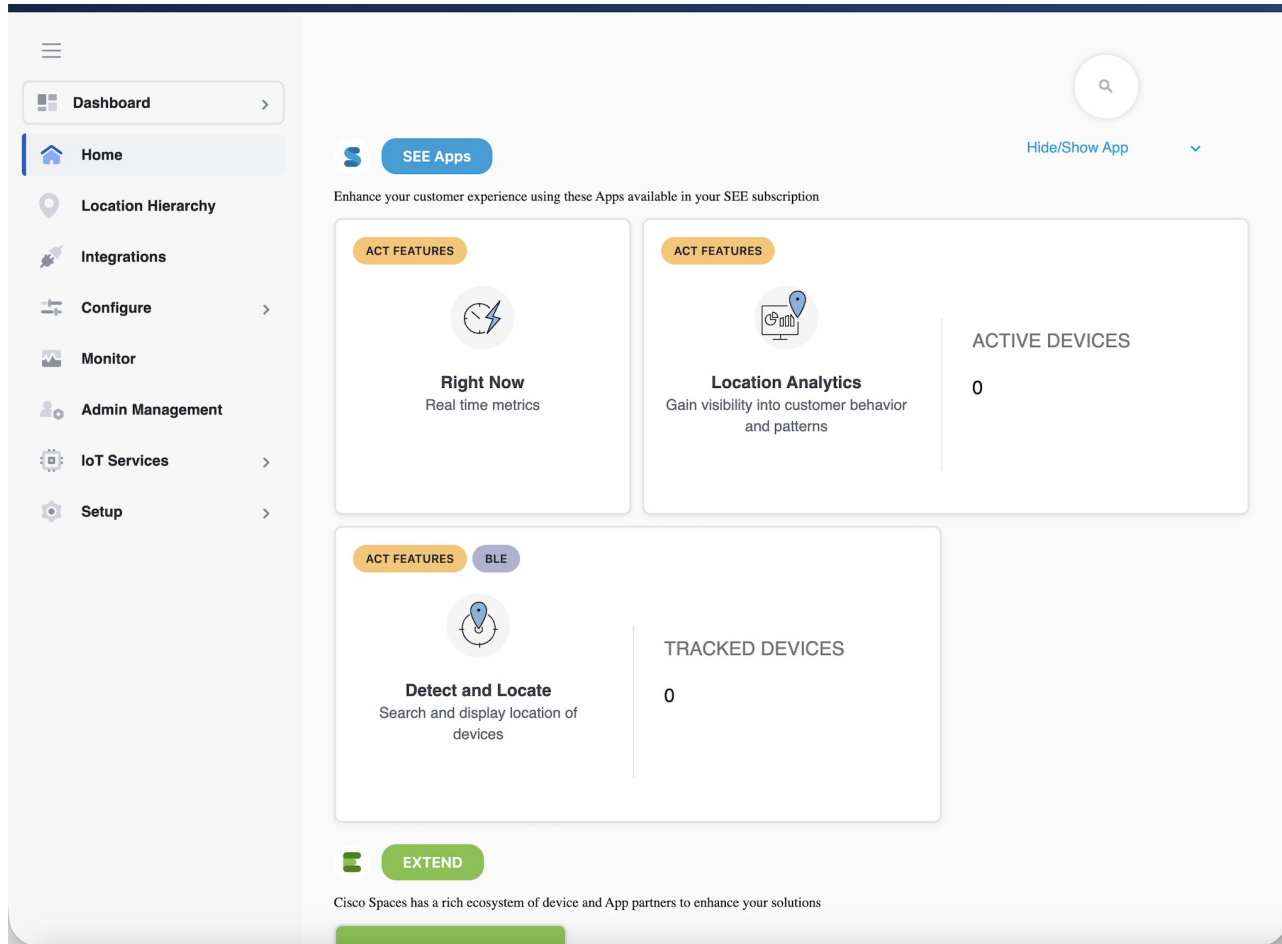

Figure 2: Home New UI

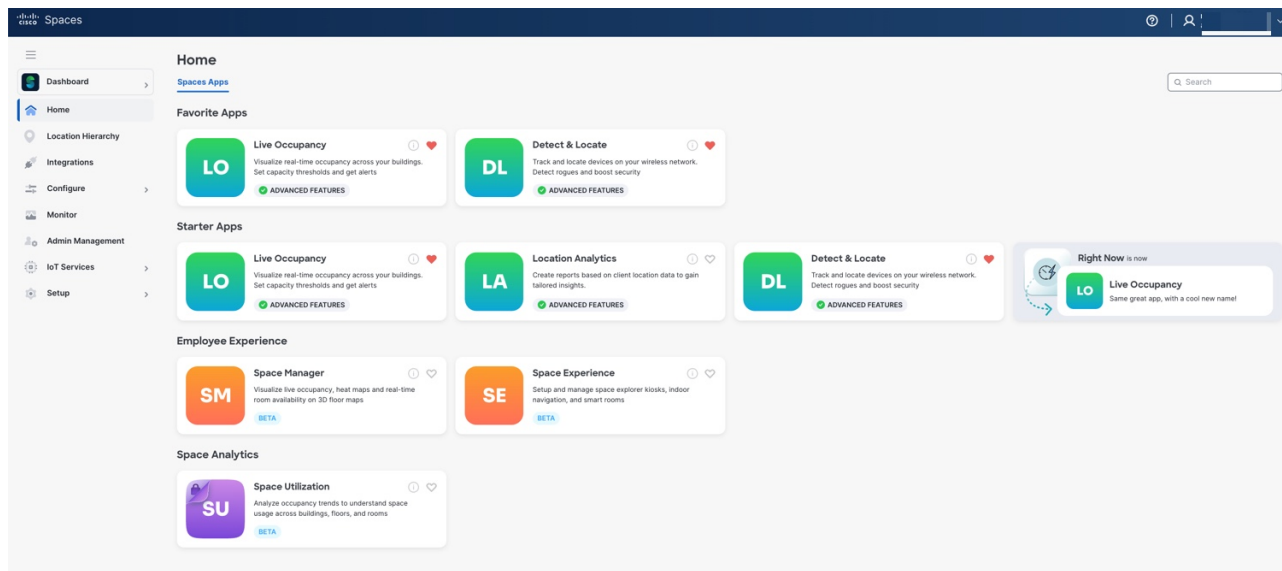

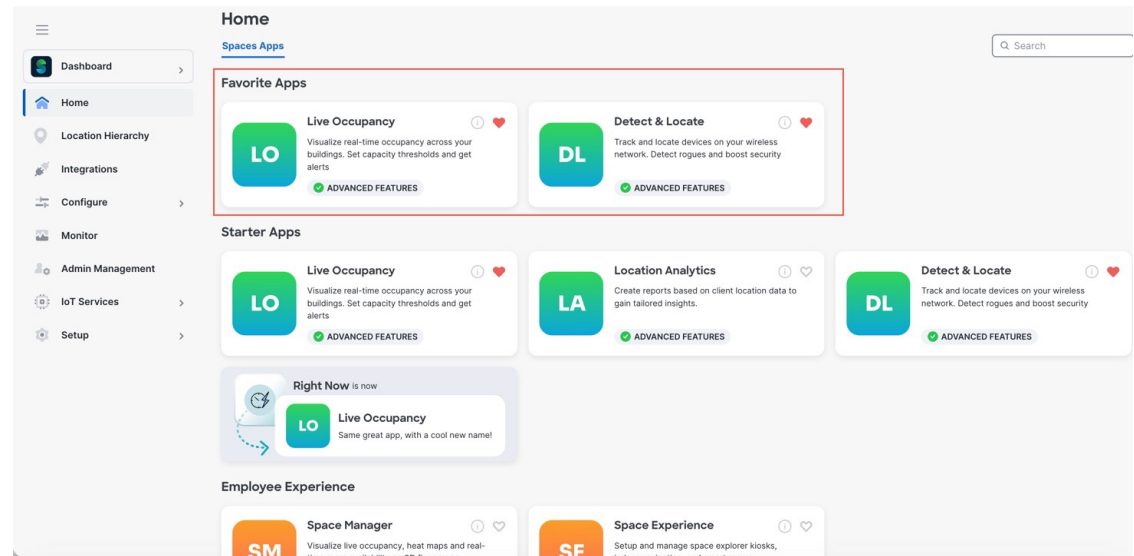

Figure 3: Favorite Apps

Note While the dashboard and apps feature a more organized design for better performance, the functionality and features remain the same. Your data, instance, and access will not change.

What's Changed in this Release

These enhancements are made in the Cisco Spaces:

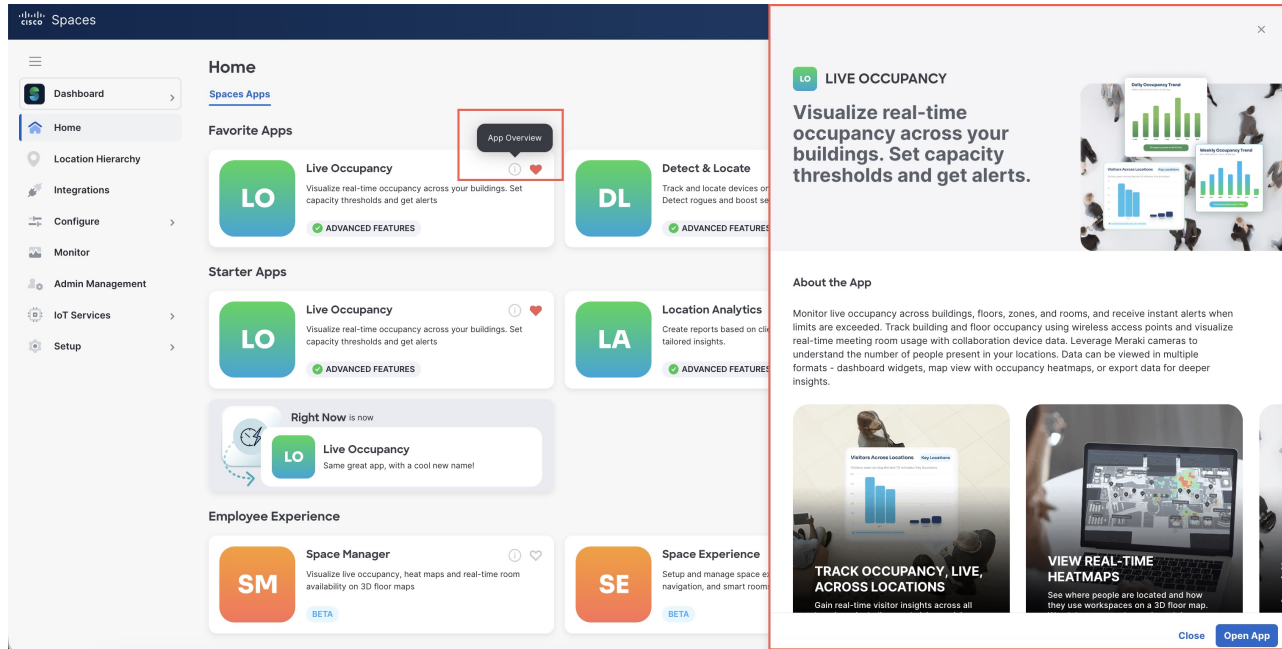

Cisco Spaces: Home UI

The new and improved Cisco Spaces dashboard includes enhancements to the **Home** page. Apps have been renamed and regrouped by use case.

Right Now is now called **Live Occupancy** app.

In the **Home** page, click the **App Overview** icon to view app details in the slide-in pane.

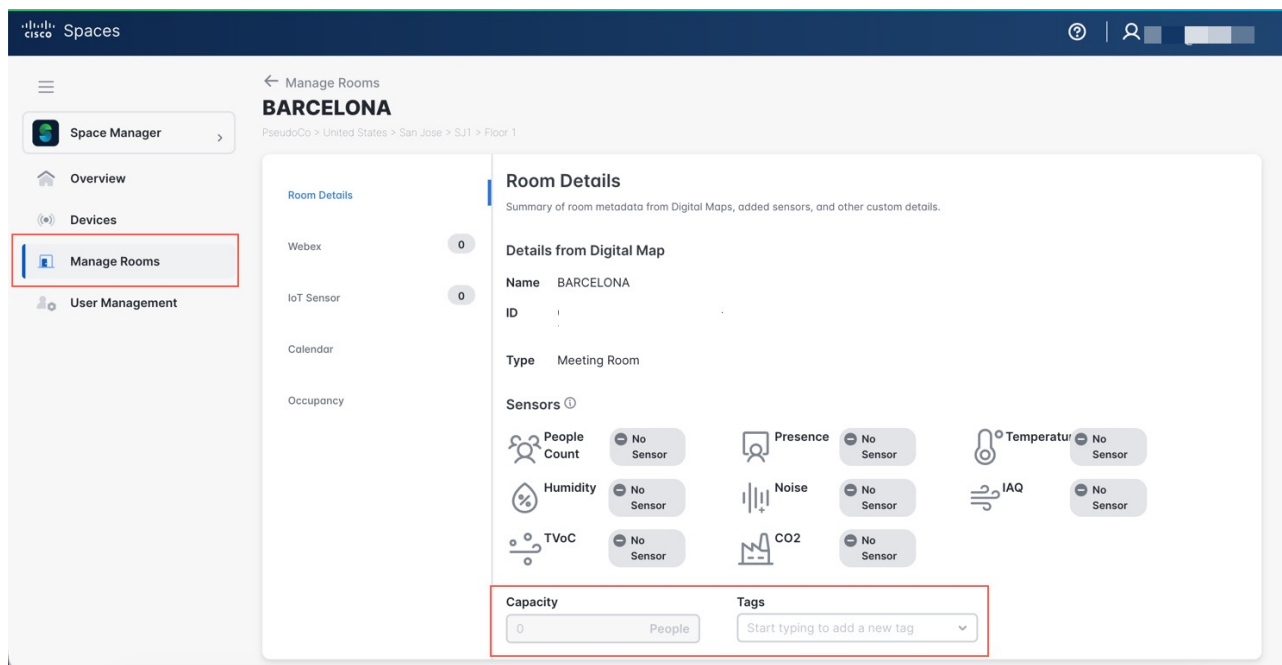

Figure 4: App Overview

Space Manager App

In the **Space Manager** app, the **Space Management** tab is renamed to **Manage Rooms**. All functionalities and features remain the same. You can use the new **Export** feature to download room details as a CSV file. For any room you select, you can add **Capacity** and **Tags** metadata to room details for additional information. These changes are designed to help you manage rooms more efficiently.

Figure 5: Manage Rooms

Issues

Issues describe unexpected behavior in the Cisco Spaces application.

Open Issues

This section lists the open issues in this release of Cisco Spaces.

Table 1: Cisco Spaces Open Issues

Issue Identifier	Issue Description
CSCws49045	Space Manager: In Devices section the webex device icons not placed over the meeting rooms when multiple devices are present in meeting room
CSCwr86129	Connector Upgrade Banner Showing Incorrect/Confusing information.

Resolved Issues

This section lists the issues that have been resolved in this release of Cisco Spaces.

Table 2: Cisco Spaces Resolved Issues

Issue Identifier	Issue Description
CSCws12587	Add Digital Map in Beta Dashboard does not allow for negative numbers.
CSCws40882	Location and Maps shows deleted location hierarchy entries.
CSCws82925	Meraki Integration syncs all non CiscoSpaces tagged networks.
