Cisco Spaces

Cisco Spaces is a multichannel engagement platform that enables you to connect, know, and engage with visitors at their physical business locations. Cisco Spaces is the industry's most scalable end-to-end indoor location services cloud platform that empowers customers to achieve business outcomes at scale. With its comprehensive suite of services, it offers a robust solution for all your location-based needs.

Product Capabilities

Cisco Spaces is a comprehensive platform that transforms buildings into intelligent, connected environments. By seamlessly connecting people, devices, and physical spaces, it leverages the power of Cisco hardware and sensors, including Catalyst and Meraki, to enable safer, smarter, and more sustainable buildings while delivering seamless, engaging experiences for everyone inside.

Cisco Spaces unified location cloud takes input from multiple sensors, processes and cleanses the data, provides toolkits to act on this data, and makes this data accessible to deliver business outcomes.
