[root@ip-172-31-78-238 sysconfig]#

¿Dónde es CCM ubicación del asistente de configuración de CloudCenter?

Todos los archivos de configuración están situados en el directorio de `/usr/local/cliqr/bin`

¿Dónde se guardan las Configuraciones CCM después de que funcionen con al Asisistente de los Config?

Todas las configuraciones serán guardadas en el archivo `mgmtserver.conf` que será situado en el directorio de `/etc/sysconfig`.

¿Dónde la configuración del logstash de los ALCES se guarda en CCM?

El archivo de configuración del logstash de los ALCES está situado bajo directorio de `/etc/sysconfig/` con el nombre del archivo del filebeat.

Versión de aplicación: 4.8.2/4.8.2.x
