Introducción Procedimiento

Introducción

Este documento describe el procedimiento para anular el registro de CyberVision Center de Cisco Smart Software Manager cuando se pierde el código de devolución de la reserva.

Procedimiento

Durante el proceso de cancelación de registro del centro (referencia: <u>Steps to Des-register</u>), se espera que el usuario copie/guarde el código de devolución de reserva generado y continúe con los pasos para restaurar los tokens de licencia en Cisco Smart Software Manager (CSSM) usando el código generado anteriormente (consulte el paso 2 en <u>Steps to Des-register</u>).

Si el usuario no ha copiado/guardado el código de devolución de reserva generado, utilice este procedimiento para recuperar el código de nuevo.

Paso 1. En Cisco Cyber Vision, haga clic en el botón REGISTER.

1 You are currently running in Evaluation mode.
To register Cisco Cyber Vision with Cisco Smart Software Licensing:
 Ensure this product is set with the right Software Subscription Licensing (Essentials or Advantage). This might require you to edit the Software Subscription Licensing. Ensure this product has access to the internet. This might require you to edit the Smart Call Home Transport Settings. Log in to your Smart Account in Smart Software Manager.
 Navigate to the Virtual Account containing the licenses to be used by this Product Instance. Generate a Product Instance Registration Token (this identifies your Smart Account) and copy or save it.
REGISTER

Se abre la ventana Registro de productos de Smart Software Licensing.

Paso 2. Haga clic en el enlace start here.

🛆 Ensure Smart Account Can Use License Reservation			
Use of the License Reservation requires specific permission from Cisco. If you do not see a "Reserve Licenses" button in Inventory > Licenses in Smart Software Manager, your account does not have the ability to use this feature.			
Please be aware that License Reservation reduces or nullifies many of the benefits of Smart Licensing including:			
 Dynamic movement of license consumption between products, failed or otherwise License usage visibility and asset management Simplified product registration
