Introduction

Ce document décrit comment supprimer des licences de la lame de supervision (MSE 8050).

Problème

Il n'existe pas de moyen direct de supprimer des licences du serveur lame de supervision au cas où vous voulez les supprimer. Aucune option n'est donnée pour retirer les lames.

The screenshot shows a web interface for license management. The top section is titled 'License summary' and contains a sub-section 'Port license status'. This section features a table with columns for 'Part number', 'License type', 'Expiry', 'Allocated', and 'Available'. Below these columns is a bar chart with seven bars representing allocation levels. The bottom section is titled 'License key management' and contains a table with columns for 'License key', 'License type', 'Quantity', and 'Expiry'.

Solution

Ouvrez un navigateur et entrez cette URL afin de supprimer la licence Media Port (par exemple) :

http://<adresse IP du superviseur>/delete_key.html?key_type=1&permanent=L6E3M-THMCT-6A11P-PQCRK-TDU2E

key_type=1 is for MSE-8420-PL: Media port licenses
 key_type=2 is for MSE-8220-PL: Recording port licenses
 key_type=3 is for MSE-8310-PL: PRI port licenses
 key_type=4 is for MSE-8350-PL: IP GW port licenses
 key_type=5 is for MSE-8710-SL: TS screen licenses
 key_type=6 is for MSE-8330-PL: Serial port licenses
 key_type=7 is for 5300-PL: 5300 Media port licenses
