## Introduzione

In questo articolo viene descritto il processo di identificazione dei prodotti che supportano la prenotazione delle licenze specifica (SLR, Specific License Reservation).

## Prerequisiti

Nessuna.

## Identificazione dei prodotti che supportano SLR

Passaggio 1:

Andare alla pagina [Cisco Smart Licensing](#) e fare clic su Famiglie di prodotti abilitate per Smart Licensing.

Risultato del passaggio: il sistema scarica automaticamente il file della guida di orientamento alle funzionalità di Smart Licensing nel computer.

## A new way to think about software licensing

### Use your Smart License with a Smart Account

A Smart Account allows you to centrally organize your licenses, devices, and specific license agreements based on your business needs.

### Cisco Smart Software Manager (CSSM)

CSSM is an intuitive portal where you can activate and manage all of your Cisco licenses. An On-Prem version is available for security-sensitive customers.

### Passaggio 2:

Aprire il file della guida di orientamento alle funzionalità di Smart Licensing, individuare le colonne SLR o SLR Preinstallazione in fabbrica e verificare se il prodotto per il quale è necessario riservare una licenza specifica supporta questa funzionalità. Verificare inoltre quali versioni del sistema operativo sono supportate.
