Abstract: This document provides configuration examples for Cisco Easy VPN clients.

Introduction

Cisco Internetwork Operating System (IOS) Configuration Examples

This section contains configuration examples for Cisco Easy VPN clients running on Cisco IOS routers. It includes examples for setting up Xauth and PAP authentication, defining crypto maps, and configuring IPsec tunnels.

Configuration Example: Setting up Xauth and PAP authentication.

Configuration Example: Setting up Xauth and PAP authentication.

Configuration Example: Setting up Xauth and PAP authentication.

Easy VPN Configuration Examples

Configuration Example: Setting up Xauth and PAP authentication.
