Inleiding

In dit artikel wordt beschreven hoe producten worden geïdentificeerd die specifieke licentieservering ondersteunen.

Voorwaarden

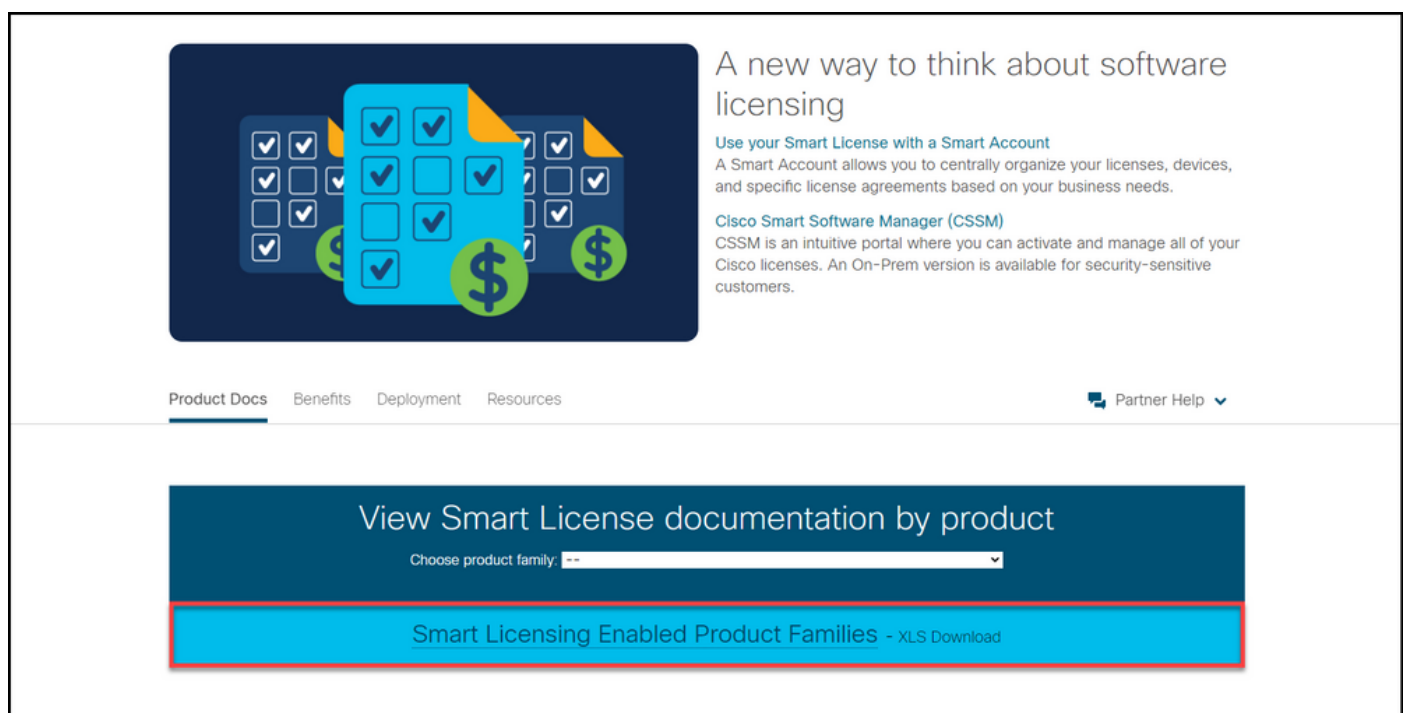

None.

Producten identificeren die SLR ondersteunen

Stap 1:

Ga naar [Cisco Smart Licensing](#) pagina en klik vervolgens op **Smart Licensing Enabled Product familie**.

Stap resultaat: Het systeem downloads van het bestand **Smart Licensing Functie** aan uw computer.

A new way to think about software licensing

Use your Smart License with a Smart Account
A Smart Account allows you to centrally organize your licenses, devices, and specific license agreements based on your business needs.

Cisco Smart Software Manager (CSSM)
CSSM is an intuitive portal where you can activate and manage all of your Cisco licenses. An On-Prem version is available for security-sensitive customers.

Smart Licensing Enabled Product Families - XLS Download

Stap 2:

Open het bestand **Smart Licensing Functie Routekaart**, plaats de **SLR-** of **SLR Fabrieksmatige** kolommen en identificeer of het product waarvoor u specifieke licentieservering moet uitvoeren deze optie ondersteunt. Zorg ervoor dat u ook controleert welke besturingssysteemversies worden ondersteund.
