# CHECKPOINT-CPMI

Name	checkpoint-cpmi
Full Name	Checkpoint CPMI
Description	Check Point Management Interface (CPMI) is a proprietary protocol of the Check Point Software Technologies Ltd. CPMI provides security services for their VPN-1 virtual private network/firewall software. The protocol contributes to Check Point Software's Open Platform for Security (OPSEC) which is a framework for network security. Typically CPMI uses TCP port 18190 as default.
