

Preface

This preface explains the objectives, intended audience, and organization of the *Cisco Enterprise Policy Manager Axis Agent Guide* and describes the conventions that convey instructions and other information.

The preface contains the following sections:

- [Objective](#)
- [Audience](#)
- [Document Organization](#)
- [Document Conventions](#)
- [Related Documentation](#)
- [Changes to This Document](#)
- [Obtaining Documentation and Submitting a Service Request](#)

Objective

This document gives the overview about the Axis Agent and explains the steps for setting up the Axis agent for the Web Application.

Audience

This guide is for administrators who use CEPM and are responsible for resource modelling and entitlement management.

Document Organization

This guide contains the following topics:

- [Introduction](#)
- [Setting Up Axis Agent in a Web Application](#)

Document Conventions

Caution

Means *reader be careful*. You are capable of doing something that might result in equipment damage or loss of data.

Note

Means *reader take note*. Notes contain helpful suggestions or references to materials not contained in this manual.

Timesaver

Means *the described action saves time*. You can save time by performing the action described in the paragraph.

Warning

This warning symbol means *danger*. You are in a situation that could cause bodily injury. Before you work on any equipment, be aware of the hazards involved with electrical circuitry and be familiar with standard practices for preventing accidents. To see translations of the warnings that appear in this publication, refer to the *Regulatory Compliance and Safety Information* document that accompanied this device. Statement 1074
