Applications

Phone applications allow you to access the following:

Call History

Call History allows you to view information about the last 50 calls on your phone, listed under the following categories:

- Missed: lists the last 50 missed calls

- Received: lists the last 50 received calls

- Placed: lists the last 50 placed calls

- All: lists the last 50 calls, including Missed, Received, and Placed

A call icon is displayed to indicate the type of call. The caller ID is displayed with the call icon. If the caller ID is unavailable, then the phone number is displayed. If the phone number is unavailable, then "Unknown" is displayed. All Call History items are ordered by time (latest to oldest).

You can also dial a number directly from the Call History list.

View call history

Procedure

Step 1   Press the **Applications** button ⚙.
Step 2   Select Call History.
Use the Navigation bar and button to scroll and select.

The phone screen displays the four call categories.

Step 3 Select a category.
The phone screen displays the call history for the selected category.

Step 4 Press the ⟲ button to return to the **Call History** screen, or press the **Applications** button ⚙ to exit the call history.

Dial from call history

Procedure

Step 1 Press the **Applications** button ⚙.

Step 2 Select Call History.
Use the Navigation bar and button to scroll and select.
The phone screen displays the four call categories.

Step 3 Select a category.
The phone screen displays the call history for the selected category.

Step 4 From the **Call History** list, select the call you want to dial and do one of the following:

- Press the **Select** button (the phone uses the speakerphone by default).

- Pick up the handset.

- Press the **speakerphone** button.

Preferences

Preferences allows you to set ringtone preference.

Ringtones

You can customize how your phone indicates an incoming call. You can also adjust the ringer volume for your phone.

Change ringtone

Procedure

Step 1 Press the **Applications** button ⚙.
