

"Global multiservice operator, Méditel is a fully integrated telecommunications company providing a complete range of mobile, fixed and data services for more than 8 million customers.

Méditel aims at enhancing peoples live and contributing to Moroccan socio-economical development through infrastructure development and innovation services delivery. Our vision is to be a model of a fast growing company, a success story of an international partnership between major telecommunications operators (Telefonica and Portugal Telecom) and Moroccan leading groups (Finance.Com and Holdco).

From a start-up, Méditel is today the most innovative telecom operator and a major economic and social player. In 2008, Méditel posted total revenues of more than 5 billion MAD which makes it among the top ten companies in Morocco and an EBITDA of 2.2 billion MAD.

Méditel developed a strong commercial and marketing strategy to meet customer expectations and needs for both business and residential segment

.

This success is also built on a commitment basis we have taken out for developing a strong corporate social responsibility, based on strong values that give sense to our mission and vision: leadership, customer orientation, team work, development, innovation, ethics and integrity."
