

Interact with anyone, anywhere,
any time to finish projects faster.

Share applications, presentations,
documents — even your PC desktop
in real time.

Take care of business more efficiently
than with back-and-forth e-mails.

Work with teams across the map — all
you need is an internet connection.

Maximize your resources by bringing
people together without the time and
expense of travel.

Move projects through faster and boost growth for all facets
of your organization. Incorporate WebEx Meeting Center™
into your business process and empower your workforce
with online collaboration.

Bring remote designers and engineers together to review
the latest plans. Conduct regular meetings between
geographically scattered staff members. Hold lively creative
sessions with your marketing and advertising teams. Make
WebEx Meeting Center available to every department and
watch productivity soar.

Meet over the web in real-time.

It's simple. Launch or join a meeting using any web browser.
Communicate information and share documents, presenta-
tions, and applications just as if you were together in person.
Pitch ideas. Demonstrate products. Discuss the hot issues.
Involve everyone you need — regardless of location.

Coordinate meetings easily.

Meeting Center features PowerPanels™ to help you keep
everything running smoothly with separate attendee and host
views. Deliver clear, interactive full-screen presentations and
documents to participants. Manage meeting functions with
control panels behind the scenes without distracting anyone.

Count on WebEx for secure, scalable service.

WebEx Meeting Center is delivered on demand over the
WebEx MediaTone™ Network, a private global network.
No new software or hardware is required, making it easy
to implement and easy to scale as your needs change. The
MediaTone Network offers better than 99.99% reliability,
as well as robust security. Your information is never
persistently stored on our servers and 128-bit SSL and
AES encryption ensures all your meetings are private and
secure. And WebEx is SAS 70 and WebTrust™ certified.

“WebEx has increased our productivity and become the de
facto online meeting standard. We average 4000 meetings
a month, many of which would have required travel.”

— Rich Nielsen, Sr. IT Engineer, Agilent Technologies

Take advantage of powerful features to enjoy easy collaboration.

Share Documents, Applications, or Desktops

Share and control documents, applications, and desktops remotely in real time without uploading files to a server. Collaborate on content as you view, annotate, and enlarge documents or graphics. Switch between different sharing modes without transitions or distractions.

Rich Multimedia Experience

Engage your audience by incorporating multi-media into your presentations: PowerPoint™, Flash™ animations, and streaming audio and video.

Integrated Telephony and VoIP

Keep conversation flowing with integrated audio. Choose toll or toll-free teleconferencing with call-in or call-back options, or VoIP.

Active Talker

Identify who's speaking by a flashing icon in the meeting participant panel.

Video and Video Conferencing

Give your attendees a real-time visual reference. Simulate face-to-face meeting with participants from multiple locations with multi-point video.

Record, Edit, and Playback Meetings

Record meetings and applications for future reference, training, or demonstrations.

Desktop Integration Suite

Initiate meetings instantly from MS Office™, MS Outlook™, Lotus Notes and Yahoo!® Instant Messenger™

One-Click Meeting Access

Start a meeting and invite attendees instantly from your desktop.

Enterprise Integration

Use your single sign-on to access Meeting Center, and count on easy integration with other enterprise applications.

Cross-Platform Support

Meet with anyone without worrying about what operating system they use. WebEx offers unmatched support for Windows, Mac, Linux, and Solaris.

WebEx MediaTone™ Performance and Reliability

Conduct multi-point interactive meetings worldwide — without latency or interruptions.

Switched Network and 128-bit SSL Encryption

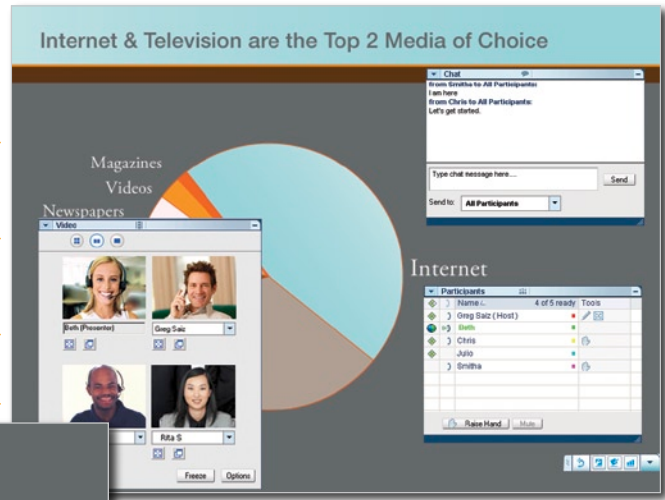

Hold even your most confidential meetings with complete confidence.

Multiple Language Capabilities

Conduct meetings in your language of choice: English, Spanish, French, German, Swedish, Japanese, Korean, Simplified Chinese, or Traditional Chinese.

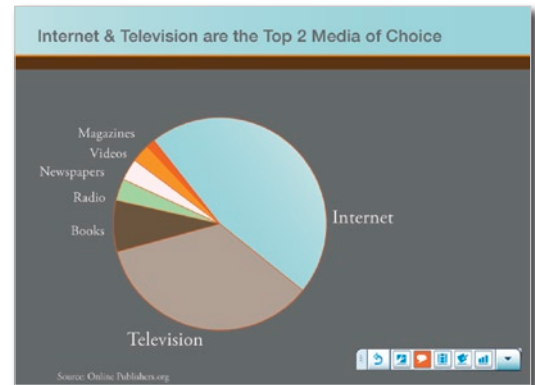

PowerPanels™

Deliver full-screen views for your attendees while you use controls to manage meeting activity privately behind the scenes.

Floating PowerPanels allow the host to view attendee list, chat, and video activity during a meeting — but are invisible to attendees.

When PowerPanels are minimized, indicators on the toolbar alert the host to any activity in these windows.

Attendees get a clear full-screen view with a discreet toolbar for navigation.

Minimum windows system requirements to host or attend fully interactive meetings:

Windows 98, ME, NT, 2000, 2003 server or XP;
Intel x86 (Pentium 400MHZ+) or compatible processor with 128MB RAM; Microsoft Internet Explorer 6, Netscape 7, Mozilla 1.4 or Firefox 1.0; JavaScript and cookies enabled in the browser; 56K or faster Internet connection.

Other platforms supported:

Mac OSX 10.2 or higher, Linux, Solaris 8 and 9.

For the latest platform requirements, visit our web page
