APPLICATION FOR EXTENSION OF TIME TO FILE AN EXEMPT ORGANIZATION RETURN - APPROVED

We received and approved your Form 8868, Application for Extension of Time to File an Exempt Organization Return, for the return (form) and tax period identified above. Your extended due date to file your return is **June 15, 2012**.

When it's time to file your Form 990, 990-EZ, 990-PF or 1120-POL, you should consider filing electronically. Electronic filing is the fastest, easiest and most accurate way to file your return. For more information, visit the Charities and Nonprofit web at www.irs.gov/eo. This site will provide information about:

- The type of returns that can be filed electronically,
- approved e-File providers, and
- if you are required to file electronically.

If you have any questions, please call us at the number shown above, or you may write us at the address shown at the top of this letter.

Underpayment of Estimated Tax by Corporations

2010

Department of the Treasury
Internal Revenue Service

▶ See separate instructions.
▶ Attach to the corporation's tax return.

Name: **Cisco Systems Foundation** Employer identification number: **77-0443347**

Note: Generally, the corporation is not required to file Form 2220 (see Part II below for exceptions) because the IRS will figure any penalty owed and bill the corporation. However, the corporation may still use Form 2220 to figure the penalty. If so, enter the amount from page 2, line 38 on the estimated tax penalty line of the corporation's income tax return, but do not attach Form 2220.

Part I Required Annual Payment

1	Total tax (see instructions).....	1	68,758.
2a	Personal holding company tax (Schedule PH (Form 1120), line 26) included on line 1.....	2a	
2b	Look-back interest included on line 1 under section 460(b)(2) for completed long-term contracts or section 167(g) for depreciation under the income forecast method.....	2b	
2c	Credit for federal tax paid on fuels (see instructions).....	2c	
2d	Total. Add lines 2a through 2c.....	2d	
3	Subtract line 2d from line 1. If the result is less than \$500, do not complete or file this form. The corporation does not owe the penalty.....	3	68,758.
4	Enter the tax shown on the corporation's 2009 income tax return (see instructions). Caution: If the tax is zero or the tax year was for less than 12 months, skip this line and enter the amount from line 3 on line 5.	4	35,660.
5	Required annual payment. Enter the smaller of line 3 or line 4. If the corporation is required to skip line 4, enter the amount from line 3.....	5	35,660.

Part II Reasons for Filing – Check the boxes below that apply. If any boxes are checked, the corporation must file Form 2220, even if it does not owe a penalty (see instructions).

- 6 The corporation is using the adjusted seasonal installment method.
- 7 The corporation is using the annualized income installment method.
- 8 The corporation is a 'large corporation' figuring its first required installment based on the prior year's tax.

Part III Figuring the Underpayment

	(a)	(b)	(c)	(d)	
9 Installment due dates. Enter in columns (a) through (d) the 15th day of the 4th (Form 990-PF filers: Use 5th month), 6th, 9th, and 12th months of the corporation's tax year.....	9	12/15/10	1/15/11	4/15/11	7/15/11
10 Required installments. If the box on line 6 and/or line 7 above is checked, enter the amounts from Schedule A, line 38. If the box on line 8 (but not 6 or 7) is checked, see instructions for the amounts to enter. If none of these boxes are checked, enter 25% of line 5 above in each column.....	10	8,915.	25,464.	17,190.	17,190.
11 Estimated tax paid or credited for each period (see instructions). For column (a) only, enter the amount from line 11 on line 15.....	11	74,990.	30,000.		22,000.
<i>Complete lines 12 through 18 of one column before going to the next column.</i>					
12 Enter amount, if any, from line 18 of the preceding column.....	12		66,075.	70,611.	53,421.
13 Add lines 11 and 12.....	13		96,075.	70,611.	75,421.
14 Add amounts on lines 16 and 17 of the preceding column.....	14				
15 Subtract line 14 from line 13. If zero or less, enter -0-.....	15	74,990.	96,075.	70,611.	75,421.
16 If the amount on line 15 is zero, subtract line 13 from line 14. Otherwise, enter -0-.....	16		0.	0.	
17 Underpayment. If line 15 is less than or equal to line 10, subtract line 15 from line 10. Then go to line 12 of the next column. Otherwise, go to line 18.....	17				
18 Overpayment. If line 10 is less than line 15, subtract line 10 from line 15. Then go to line 12 of the next column.....	18	66,075.	70,611.	53,421.	

Go to Part IV on page 2 to figure the penalty. Do not go to Part IV if there are no entries on line 17 – no penalty is owed.

Part IV Figuring the Penalty

	(a)	(b)	(c)	(d)
19 Enter the date of payment or the 15th day of the 3rd month after the close of the tax year, whichever is earlier (see instructions). (Form 990-PF and Form 990-T filers: Use 5th month instead of 3rd month.)	19

Background

The Cisco Systems Foundation (Foundation) and Cisco Systems Inc.'s Public Investment Benefit (PBI) group apply the same strategic approach, guidelines and processes to Investment Areas, Eligibility Criteria, Grant making Guidelines, and Application procedures. Cisco Systems Inc. screens proposals at no cost to the Foundation and presents possible funding opportunities to the Foundation, which the Foundation then considers and approves if appropriate. The Foundation only provides funding that is appropriate given its status as a Section 501(c)(3) charity and as a private foundation, and only when the proposed project is in furtherance of its own charitable purposes.

The Foundation's grant expenditures fall into the following major programs: Global Impact Cash Grants program, Community Impact Cash Grants (includes Silicon Valley Impact Grants) program, as well as an employee Matching Gifts program.

The following sections provide details on guidelines and processes for each of these programs. Within this document, references to Cisco apply to both the Cisco Systems Foundation and Cisco Systems Inc.

Cisco is committed to making social investments that lead to successful individuals and institutions, and vibrant communities. Cisco's cash grants programs support non-profit and non-government organizations working in the investment areas specified under each of these programs. In order to maximize the impact of investments, Cisco supports innovative organizations that serve the underserved, and leverage technology solutions to improve the efficiency, reach, and social impact of their services. Carefully selected organizations that meet Cisco's grant making criteria and policies, and serve at least one of Cisco's investment areas may be eligible for cash grants.

Global Impact Cash Grants

In the spirit of Cisco's vision to "Change the Way We Work, Live, Play, and Learn", Global Impact Cash Grants are awarded by Cisco's Public Benefit Investment (PBI) group to US-based and non-US based non-profit organizations around the globe, with national or multinational operations. Eligible organizations must align with our grant-making criteria and policies.

Cisco's overall approach is to partner with non-profit organizations to identify, incubate, and develop innovative solutions that solve challenging socioeconomic conditions in at least one of the investment areas: critical human needs, access to education, and economic empowerment. In order to maximize the impact of investments, Cisco supports programs that fit within its investment areas, serve the underserved, and leverage technology solutions to improve the reach, efficiency, and impact of services. Programs must also have high potential for replication and scale in multiple environments, and a clear path for long-term sustainability.

Global Impact Cash Grants - Investment Areas

Cisco Global Impact Cash grants focus on underserved populations worldwide, working in the three investment areas elaborated upon below.

Information Regarding Contribution, Grant, Gift, Loan, Scholarship, etc Programs

Critical Human Needs

Cisco seeks to help overcome the cycle of poverty and dependence through strategic investments that enhance the capacity of organizations that successfully address basic needs of underserved communities. The rationale behind this strategy and approach is that families who have good health and a place to call home are better equipped to learn. Cisco's investments support programs with innovative solutions which increase capacity, allowing the grantee organization to deliver its products and/or services more effectively and efficiently. Cisco also supports the design and implementation of web-based tools which increase the availability of, or improve access to, products and/or services that are necessary for people to survive and thrive.

Within Cisco's framework, the critical human needs investment area includes clean water, food, and shelter. Cisco investments support programs that provide these and other essential prerequisites to self-sufficiency. Cisco also has funded programs such as Habitat for Humanity, to provide housing to families in need. Likewise, Cisco's partnership with Community Voice Mail (CVM), provides thousands of vulnerable individuals with free voicemail and access to critical and timely information and resources, thus linking them to jobs, housing, and financial stability.

When appropriate, Cisco makes cash grants in response to acute needs, such as disasters and humanitarian crises. In the past, Cisco has provided support through organizations such as the American Red Cross, Save the Children, CARE, and NetHope, to provide relief to people affected by the cyclone in Myanmar, earthquakes in Japan, China, Haiti and Chile, Asian Tsunami, Hurricane Katrina in the U.S., Bangladesh cyclone, California wildfires, Horn of Africa famine, and other disasters.

Access to Education

Cisco's strategy is to support the creation and deployment of technology-based solutions which enable school-age children (kindergarten through eighth grade) to master a baseline of educational knowledge in mathematics, literacy, science, engineering, and technology. The rationale behind this approach is that children that have mastered core curriculum in primary school have the foundation to succeed in secondary school and beyond. In line with Cisco's overall grant-making philosophy, Cisco focuses particularly on underserved populations.

Cisco investments support innovative solutions which increase capacity, allowing grantee organizations to deliver, administer, and track education development more effectively and efficiently. To this end, Cisco funds the design and development of tools which increase the availability of, or improve access to, products and/or services for curriculum development, student centricity, teacher development, and parental participation - Cisco does not provide direct funding to schools. Cisco has funded organizations such as Teachers Without Borders, to develop a web-based portal providing an open-source, modular, scalable toolset for teachers. Likewise, Cisco supported the MIND Research Institute to develop a fully web-deliverable platform to enable scale-up of their education programming, which aims to improve the math proficiency rates and problem-solving skills of K- students.

Economic Empowerment

Cisco's strategy is to encourage employment success, entrepreneurship, and innovation by providing access to skills, knowledge, and financial products and services via technology-based solutions. Target beneficiaries are underserved populations transitioning from education to

workforce, or re-entry to workforce. Cisco's investments in technology solutions facilitate widespread and equitable access to resources that people in poverty need to achieve sustained economic self-sufficiency, and participate in socio-economic development in their communities.

Access to financial products and services investments focus on addressing the technology and human capital constraints to increase the reach, efficiency, sustainability and social impact of microfinance institutions (MFIs). Cisco has partnered with organizations such as the Grameen Foundation, to develop the Mifos Initiative, a web-based open-source management information system for MFIs. Additional partners include Kiva, Acumen Fund, and ACCION International, among others.

Human capital development investments focus on providing access to knowledge and (technical and leadership) skills upgrading for individuals and entrepreneurs, so people are equipped for the workforce and can make informed decisions for themselves and their families. Cisco has partnered with organizations such as One Global Economy, in support of their Beehive and Digital Connectors programs. Cisco has also supported BluWorld and ImagineNations capacity building portals, and Inveneo's Certified ICT program.

Global Impact Cash Grants - Grantmaking Criteria

When Cisco evaluates grant proposals, our goal is to partner with nonprofit organizations that maximize the impact of the assets we have to offer, thereby nurturing the development of successful, self-sustaining individuals and vibrant communities around the globe. To that end, we give highest priority for consideration and funding to proposals that can clearly articulate the planned impact of their efforts, as well as the metrics by which that impact would be measured.

Provided below are the criteria we use to evaluate a grant proposal. We believe these values are the key to maximizing our positive impact on the community.

Addresses a Significant Social Problem with Unmet Need

The program addresses a problem that affects a large number of lives within the target area, and which has severe effects on the lives of individuals and communities within the target area. The significant unmet need exists due to a gap between current and required funding, and/or the need for innovative approaches.

Serves the Underserved

The target audience is greater than 65% economically underserved, relative to the average standards of the target geography.

Utilizes and Leverages the Internet

The program uses the internet and/or internet-based communications technology to improve the efficiency and reach of program services.

Employs an Innovative Approach with Potential for Broad Impact

The program provides an innovative solution that creates an opportunity for significant impact beyond the direct benefits of specific Cisco-funded activities. For example:

- Market effects due to major shift in economics, productivity, and effectiveness.

- Ability to catalyze behavior of other key agents or partners in ecosystem to achieve an order of magnitude more together than apart.

Has Appropriate Attributes to be Replicable

The design of the program allows for it to be easily and cost effectively reproduced/duplicated for use in local environments around the globe.

Has Appropriate Attributes to be Scalable

The design of the program allows it to expand to meet the needs of the target population without a nearly equivalent investment of resources for each individual or group.

Has Appropriate Attributes to be Sustainable

The long-term plan for the program includes mechanisms by which it can flourish significantly beyond the resources which will be provided by Cisco.

Incorporates Metrics to Measure Program Impact

The program defines and utilizes SMART (Specific, Measurable, Achievable, Realistic, Timely) metrics in order to help Cisco and the grantee measure progress towards success.

- **Specific:** Specific Metrics are clear and well-defined. This helps both the grantee and the grantor, as the grantee knows what is expected of them and the grantor is able to monitor and assess actual performance against the specific Metrics.
- **Measurable:** Progress toward Metrics often needs to be monitored while work is underway. It is important to know when that work has been done as the Metrics are completed. A measurable metric achieves this end.
- **Achievable:** Achievable Metrics ensure that everything is in place and that if the grantee does not reach the goals they cannot reasonably point the finger elsewhere.
- **Realistic:** Metrics should be realistic. A metric will often fail for a number of reasons including a lack of skill, not having enough resources (computers, tools, etc.), not having access to key people and not having management support.
- **Timely:** Descriptions of Metrics should include timescales of what is required by when. This may also include details of delivery, stating (if relevant) where Metrics are to be completed. Giving a time scale adds appropriate sense of urgency and ensures that the Metrics do not dribble out over an unreasonably long timescale.

Possesses Outstanding Leadership

The organization has an outstanding leader and/or management team with qualities such as vision, execution ability, passion, ethical approach, expertise, external relationships, and credible track record in the relevant area.

Aligns with Cisco Goals and Values

- Program meets basic criteria, guidelines, requirements of Cisco grant programs
- Program fits into at least one investment area: Critical Human Needs, Access to Education, Economic Empowerment
- Program leverages the internet
- Program serves the underserved
- Program has the potential to leverage the breadth of Cisco resources and assets (i.e., products, Cisco employees, partner ecosystems, etc.) for maximum value added

Overall, Cisco will not consider incomplete proposals or programs that do not meet our grant-making criteria.

Global Impact Cash Grants – Eligibility Requirements

Following are the basic eligibility requirements and policies for Cisco Global Impact Cash Grants:

Organization Classification

1. U.S. organizations must provide evidence that the IRS has recognized them as tax exempt under the Internal Revenue Code Section 501 (c)(3), AND has classified them as a public charity.
2. Organizations from outside the U.S. must (a) provide information and documents to determine whether the organization is the equivalent of a U.S. public charity, or (b) agree to sign and comply with an expenditure responsibility contract. Cisco will determine whether (a) or (b) is appropriate for a particular organization.

First-Time Global Impact Cash Grant Applicants

Note that for first-time global grant applicants, the maximum request amount Cisco will consider is US \$75,000.

Overhead Percentage

As a rule, Cisco does not fund organizations or programs whose overhead expenses exceed 25%. Organizations or programs whose overhead costs exceed our stated limit are occasionally exempt from this requirement; however, they must be exceptionally aligned with Cisco's values and criteria, and they must clearly explain and justify their overhead costs. Exemptions to the requirement on overhead expenses are determined on a case-by-case basis.

Ineligible Programs and/or Activities

- **Miscellaneous exclusions:** general operating expenses, other than directly associated with the program itself; individuals; research programs; membership-based activities; programs that promote or serve one culture, race, religion, population group, or political viewpoint - rather than the community at large; religious, political, or sectarian organizations (some exceptions apply. See our "Policy on Religious Proselytizing" below).
- **Hospitals:** Private or public hospitals; hospital foundations; medical centers, research centers, etc. (Programs based in a hospital may be eligible; however, grant funds must go exclusively to direct service in the community, not to general hospital operating expenses.)
- **Schools and scholarships:** Private, public, or charter schools; school foundations, booster clubs, and/or fundraising organizations affiliated with a particular school; colleges/universities; scholarships, stipends or loans within a program; and/or school-related activities such as field trips, research programs, etc.
- **Events:** athletic events, competitions, tournaments; conferences, seminars, workshops; festivals, field trips, or other recreational events; fundraising events or sponsorships (benefit dinners, walks/runs, concerts, sports teams, etc.)

- **Philanthropic:** capital building funds, challenge grants, grant-making organizations (all other foundations including private foundations, family foundations, school foundations, etc.)

Policy on the Funding of Equipment

In general, Cisco does not fund the purchase of computer hardware or software, but may consider doing so only in cases where: 1) such resources are leveraged in a strategically innovative manner, thereby extending their impact well beyond everyday/staff use; AND 2) such resources are not available through other, more cost-effective means such as in-kind donation. Applicants must demonstrate that they have thoroughly explored such avenues without success.

Policy on Non-Discrimination

Cisco Systems and the Cisco Foundation do not promote or discriminate against any person, population group, or organization with regard to categories protected by applicable United States law, as well as other categories identified by Cisco in alignment with our own Human Resources policies. These include, but are not limited to race, color, religion, sex, gender expression, physical appearance, language, education background, national origin, age, disability, and veteran status.

Cisco Systems and the Cisco Foundation seek to support public benefit organizations that are substantially in alignment with our non-discrimination policy. Organizations that are found to discriminate in their provision of services and/or their hiring practices based on any of these or other criteria may be deemed ineligible for funding support and/or required to return any grant awards, and may be rendered ineligible for future support.

Policy on Religious Proselytizing

Cisco is committed to providing an open, diverse, and nondenominational working environment. Cisco will not support any program which requires exposure, adherence to, or conversion to any religious doctrine in order to be a beneficiary of the program. To clarify, a direct service program run by a faith-based organization may be eligible, provided that the program's beneficiaries are not encouraged or required to learn about, adhere to, or convert to that organization's religious doctrine as a condition of receiving service from the program.

Policy on Non-Support of Violence and Terrorism

It is Cisco's mission to fund nonpartisan service organizations that adhere rigorously to fundamental human rights principles. Cisco does not knowingly support grantee organizations that endorse, support, or promote violence, terrorist activity, or related training, whether through their own activities or indirectly through their support of, support by, or cooperation with, other persons and organizations engaged in such activities. Cisco requires our grantees to confirm that they do not engage in or support such activities, and we vet potential grantees with care. If a grantee appears to be in violation of this policy, Cisco will suspend funding immediately and require the grantee to freeze grant funds until Cisco has investigated the matter. If the investigation discloses violations of this policy, Cisco will require the grantee to return all grant funds; Cisco will classify the grantee as ineligible for future funding; and Cisco will take such other steps as the law may require.

Policy on Advocacy, Lobbying, and Other Political Activity

Cisco's policy with respect to providing grant support to organizations that engage in advocacy and/or lobbying is subject to our diversity policy. This policy states that Cisco does not promote

or discriminate against any person, population group, or organization with regard to race, color, religion, sex, gender expression, national origin, age, disability, veteran status, or other categories protected by applicable United States law. In accordance with this policy, Cisco will not provide grant support to any organization that advocates or lobbies against any such protected category.

Furthermore, in order to avoid actual or apparent preferences for any protected or non-protected category over another, Cisco may reject grant support to any organization that lobbies or advocates for or against any single person, population group, organization, or cause/issue (e.g., political position, policy, law/legislation, etc.).

In addition, grantees that are classified as charitable organizations under the U.S. Internal Revenue Code must certify to Cisco that they comply with applicable law regarding limits on their lobbying activity and that they do not engage in prohibited electioneering activity. Finally, Cisco does not permit its grant funds to be applied to any individual program of a grantee that involves any type of lobbying or other political activity.

Note: "Lobbying" is defined in Section 4945(e) of the U.S. Internal Revenue Code to mean attempts to influence legislation through grassroots lobbying of the public or direct lobbying of government officials. Certain exceptions exist (e.g., for nonpartisan analysis or invited testimony). "Legislation" includes all matters that may be voted upon by the U.S. Senate or House of Representatives, a state legislature, a local city or county council, an Indian tribal body, or a legislative body in a foreign nation, including votes taken by a committee of such body. Such matters may include votes to approve executive or judicial appointments of public officials as well as new laws or repeal of existing laws. "Legislation" also includes laws voted upon by the people in an initiative, referendum or other vote taken within a national, state, or local area.

"Political" refers to any payment made or action taken, directly or indirectly, to influence the outcome of any political campaign on behalf of, or in opposition to, any candidate for elective public office, including oral or written statements. Such activity is prohibited for tax-exempt organizations under Section 501(c)(3) of the U.S. Internal Revenue Code.

Policy on Board Review and Approval

Cisco requires applicants to certify that the chairperson or at least one officer of the organization's Board of Directors has reviewed the grant proposal and that the organization's board is aware of the application and supports its submission. Cisco also requires applicants to certify the accuracy of the proposal and to confirm that the organization complies with the policies stated on this web site.

Policy on Reviews of Accuracy/Compliance

All applicants are subject to reviews of their representations in their grant applications, their compliance with the policies stated above, and, if applicable, their adherence to the terms of the grant contract. If such a review reveals significant inaccuracies or violations of the policies stated above, or if an organization does not cooperate with the review, the organization may be required to return any granted assets and forfeit future funding eligibility.

Written Grant Contract

Grantee organizations are required to sign a written grant contract before payments can be made.

Reporting and Performance Tracking

As noted in the Grant-Making Criteria section of our program overview, Cisco looks for grant proposals in which concrete measures of success can be used to assess performance. Organizations that receive funding will be required to register with an online system that will enable them to customize performance metrics for their project and measure their progress over the life of the grant award. Meaningful participation in this process is a requirement for continued funding eligibility.

Miscellaneous Policies

Please be sure you have reviewed the most recent criteria available on this website, and that you are using our online application form. We regret that we cannot accept legacy paper forms. Application guidelines and requirements are subject to change without notice, and become effective immediately upon posting to this web site. The interpretation and application of these policies is wholly within the discretion of Cisco and the Cisco Foundation. Furthermore, all grants are made at the discretion of Cisco and the Cisco Foundation. Qualification under the policies listed above does not entitle an organization to receive a grant. Cisco reserves the right to decline to make any grant requested.

Global Impact Cash Grants - Application Process

We now accept unsolicited applications to the Global Impact Cash Grant program. Our new application process is open year-round; therefore, your organization may begin the application process at any time. Please note that all grant applications must be submitted using our online grant application tool. We do not accept applications submitted via postal mail or email attachment.

The following sections provide an overview of each of the steps within our new grant application and evaluation process.

Step 1: Review Cisco Investment Areas, Grant-making Criteria, and Policies for Global Impact Cash Grant Program

Before beginning the application process, please review relevant sections of this site to familiarize yourself with our investment areas, grant making criteria, and eligibility guidelines and policies, to determine if your organization and program align with our objectives and criteria.

Step 2: Eligibility Quiz

The Eligibility Quiz is the second step in Cisco's Global Impact Cash Grant application process. Any organization interested in submitting an application for consideration may complete this online Quiz. This Quiz must be completed by the potential applicant organization, regardless of its geographic base of operations or location of organization headquarters. The intention of this Quiz is to help you evaluate whether your organization has a program a) that meets our grant-making criteria and eligibility requirements, and b) that Cisco might consider for potential cash grant support. Completion of the eleven-question quiz will help you determine whether your organization and program are aligned with Cisco's mission, strategic approach, and objectives for grant support. Take the Eligibility Quiz now.

Step 3: Initial Information Form

The Initial Information Form is the third step in our grant application process. Organizations that successfully complete Cisco's Eligibility Quiz will be prompted to register their organization and

complete the online Initial Information Form. The intention of this Form is to further evaluate whether your organization has a program Cisco might consider for cash grant support. Note that for first-time applicants, the maximum request amount we will consider is US\$75,000.

A Cisco grant administrator will review the Initial Information Form submitted by your organization. He/she will respond to you within one business quarter to confirm whether or not your organization will be invited to submit a formal proposal application online. Please note that submission of an Initial Information Form does not guarantee that your organization will be invited to submit a formal proposal application. Initial Information Forms are reviewed wholly within the discretion of Cisco and the Cisco Foundation.

Step 4: Full Proposal

If, upon review of your organization's Initial Information Form, the Cisco grant administrator determines that your organization's program is aligned with Cisco's mission, strategic approach, and objectives for grant support, you will receive an invitation to submit a formal proposal application online, along with an invitation code for the relevant proposal type. Once your full proposal is submitted, your application will begin the formal review process. If further information is needed, you will be contacted by a grant administrator. You can expect to hear from a grant administrator on whether your grant proposal has been approved or rejected, within one business quarter.

Please note that receiving a request from Cisco to submit a formal proposal application does not constitute a guarantee of proposal application approval. Furthermore, Cisco is not responsible for any proposal related expenses incurred by your organization, at any step in the grant application process. Grant application policies and requirements are subject to change without notice, and become effective immediately upon posting to this website. The interpretation of these policies is wholly within the discretion of Cisco and the Cisco Foundation. Furthermore, all grants are made at the discretion of Cisco and the Cisco Foundation. Qualification under the policies listed on this website does not entitle an organization to receive a grant. We reserve the right to decline to make any grant requested.

Community Impact Cash Grants

In communities where Cisco has a major employee and operational presence, there is interdependency between Cisco and key local community stakeholders in the education, non-profit, government and business sectors. Each has its own important and unique role in helping ensure a quality of life for all citizens.

Since every site community is different, Cisco must ensure it has the flexibility to meet unique community and organizational needs where they are the greatest. Community Impact Cash Grants provide a framework for leveraging Cisco's contributions and volunteer resources to effectively and efficiently meet local community needs thus helping to build a strong and economically thriving community for all.

Community Impact Cash Grants are available to qualifying organizations within a 50 mile radius of Cisco major site communities including Boxborough - Massachusetts, Lawrenceville - Georgia, Research Triangle Park - North Carolina, Richardson - Texas, San Jose - California and Cisco locations that have an active Civic Council and significant employee presence. The physical headquarters of the organization need not be within this radius, as long as an affiliate

office operates and/or administers programs within the specified area. Locate a Civic Council.

Community Impact Cash Grants support the unmet needs of underserved communities in the areas of Education and Critical Human Needs. Organizations must also qualify against a set of guidelines and requirements as outlined on the following web pages.

Ultimately, the Community Impact Cash Grant process is designed to meet the unique needs of the local community while aligning and extending the impact of Cisco's broader philanthropic goals. Community Impact Cash Grants are awarded through a competitive application process coordinated by Community Relations and Civic Councils. Together, Community Relations and Civic Councils interface with local organizations to help determine eligibility and investment effectiveness on behalf of Cisco Foundation.

Community Impact Cash Grants - Investment Areas

Community Impact Cash Grants support the unmet needs of underserved communities in the areas of Education and Critical Human Needs.

Education

Cisco believes that a strong and quality education system is fundamental to the economic success and quality of life in knowledge-based communities, and it is the economic future of every nation. Thus, Cisco builds capacity in organizations improving education in its local communities. Within the broad spectrum of issues affecting education, Cisco and its employees are particularly well-suited to invest in organizations, programs and strategic initiatives that improve literacy and science, and increase graduates in the fields of Science, Technology, Engineering and Mathematics.

Fundamentally, Cisco invests in organizations that help ensure all students have an equal opportunity to learn and succeed in the 21st century beginning with preparation in pre-K programs through post secondary school.

Critical Human Needs

Cisco supports building capacity in organizations, projects and initiatives that assist in meeting our neighbors' basic human needs for food, shelter, disaster response, water, access to basic healthcare and breaking the cycle of poverty.

Giving back to the neediest among us is a core value of Cisco culture with roots in the earliest days of the company. Cisco employees indicate a strong motivation to work to meet the daily needs of our neighbors, and it makes them particularly proud to work for Cisco. Additionally, Cisco's work in this area is a fundamental part of building the type of communities where all want to live, work and raise families, as well as a thriving economic environment where technology and innovation are valued.

Community Impact Cash Grants - Grantmaking Criteria

When Cisco evaluates grant proposals, the goal is to partner with organizations that maximize the impact of the assets offered, thereby nurturing the development of healthy, self-sustaining, civic-minded communities around the globe. To that end, the highest priority and funding consideration is given to proposals that can clearly articulate the planned impact of their efforts, as well as the

metrics by which that impact will be measured.

Listed below are the criteria used to evaluate a grant proposal. These values are key to maximizing positive impact in the community.

Addresses a Significant Social Problem with Unmet Need

The organization addresses a problem that affects a large number of lives within the target area, and which has detrimental effects on the lives of individuals within that community. The significant unmet need requires urgent action.

Serves the Underserved

The target audience of the program includes economically underserved populations relative to the average standards of the target geography. A minimum of 50 percent of the constituency served by the organization must be economically underserved. The higher the percentage of underserved, the higher the likelihood of receiving funding.

Utilizes and Leverages the Internet

Community Impact Cash Grants do not necessarily require the program to be funded to include greater use of the Internet; however priority is given to organizations that incorporate technology in the delivery and reach of services.

Incorporates Metrics to Measure Program Impact

The program defines and utilizes SMART (Specific, Measurable, Achievable, Realistic, Timely) metrics in order to help Cisco and the grantee measure progress towards success.

- **Specific:** Specific metrics are clear and well-defined. This helps both the grantee and the grantor, as the grantee knows what is expected of them and the grantor is able to monitor and assess actual performance against the specific metrics.
- **Measurable:** Progress toward metrics often needs to be monitored while work is underway. It is important to know when that work has been done as the metrics are completed. A measurable metric achieves this end.
- **Achievable:** Achievable metrics ensure that everything is in place and if the grantee does not reach the goals, they cannot reasonably point the finger elsewhere.
- **Realistic:** Metrics should be realistic. A metric will often fail for a number of reasons including lack of skill and/or resources (computers, tools, etc.), not having access to key people and not having management support.
- **Timely:** Descriptions of metrics should include a time frame of what is required by when. This may also include details of delivery, stating (if relevant) where metrics are to be completed. Providing a time frame adds an appropriate sense of urgency and ensures the metrics do not dribble out over an unreasonably long time frame.

Possesses Outstanding Leadership

The organization has an outstanding leader and/or management team with qualities such as vision, execution ability, passion, ethical approach, expertise, external relationships, and credible track record in the relevant area.

Aligns with Cisco Goals and Values

The organization meets the basic criteria, guidelines and requirements as defined for Cisco's Community Impact Cash Grant program.

Community Impact Cash Grants – Eligibility Requirements

The following are the Eligibility and Policy requirements for Community Impact Cash Grants.

Organizational Requirements

- Organizations must be recognized by the Internal Revenue Service (IRS) as tax-exempt under Internal Revenue Code Section 501(c)(3) and classified by the IRS as a public charity.
- Organizations from outside the United States (U.S.) must (a) provide information and documents to determine whether the organization is the equivalent of a U.S. public charity, or (b) agree to sign and comply with an expenditure responsibility contract. Cisco will determine whether (a) or (b) is appropriate for a particular organization.
- Organizations to be funded must serve an audience greater than 50 percent economically underserved relative to the average standards of the target geography.
- Organizations and programs that fit the core parameters outlined in the Community Impact Cash Grants Investment Areas are eligible to apply.
- Community Impact Cash Grants are available to qualifying organizations within a 50 mile radius of Cisco major site communities including Boxborough - Massachusetts, Lawrenceville - Georgia, Research Triangle Park - North Carolina, Richardson - Texas, San Jose - California and Cisco locations that have an active Civic Council and significant employee presence. The physical headquarters of the organization need not be within this radius, as long as an affiliate office operates and/or administers programs within the specified area. Locate a Civic Council.
- An organization's overhead is not to exceed 25 percent.

Ineligibilities

Cisco will not consider incomplete proposals or programs/projects that fall outside Cisco's Community Impact Cash Grants Investment Areas including the Eligibility and Policy requirements listed on this webpage. In addition, proposals in the following areas are not eligible for a Community Impact Cash Grant.

- Multi-year grant support requests
- Grants to public/private schools, charter schools, school districts, school foundations or parent/booster clubs
- Grants in support of events such athletic events, competitions or tournaments, conferences/seminars, festivals, field trips, and fundraisers including sponsorship of benefit dinners, walks/runs, golf tournaments, sports teams, etc.
- Capital building funds, challenge grants and matching grants
- Individuals seeking personal grant awards
- Religious, political, or sectarian organizations (Exceptions may apply. See our Policy on Religious Proselytizing.)
- Research projects/programs

Policy on the Funding of Equipment

In general, Cisco does not fund the purchase of computer hardware or software, but may consider doing so only in cases where: 1) such resources are leveraged in a strategically innovative manner, thereby extending their impact well beyond everyday/staff use; AND 2) such resources

are not available through other, more cost-effective means such as in-kind donation. Applicants must demonstrate that they have thoroughly explored such avenues without success.

Policy on Non-Discrimination

Cisco Systems and the Cisco Foundation do not promote or discriminate against any person, population group, or organization with regard to categories protected by applicable United States law, as well as other categories identified by Cisco in alignment with our own Human Resources policies. These include, but are not limited to race, color, religion, sex, gender expression, physical appearance, language, education background, national origin, age, disability, and veteran status.

Cisco Systems and the Cisco Foundation seek to support public benefit organizations that are substantially in alignment with our non-discrimination policy. Organizations that are found to discriminate in their provision of services and/or their hiring practices based on any of these or other criteria may be deemed ineligible for funding support and/or required to return any grant awards, and may be rendered ineligible for future support.

Policy on Religious Proselytizing

Cisco is committed to providing an open, diverse, and nondenominational working environment. Cisco will not support any program which requires exposure, adherence to, or conversion to any religious doctrine in order to be a beneficiary of the program. To clarify, a direct service program run by a faith-based organization may be eligible, provided that the program's beneficiaries are not encouraged or required to learn about, adhere to, or convert to that organization's religious doctrine as a condition of receiving service from the program.

Policy on Non-Support of Violence and Terrorism

It is Cisco's mission to fund nonpartisan service organizations that adhere rigorously to fundamental human rights principles. Cisco does not knowingly support grantee organizations that endorse, support, or promote violence, terrorist activity, or related training, whether through their own activities or indirectly through their support of, support by, or cooperation with, other persons and organizations engaged in such activities. Cisco requires grantees to confirm that they do not engage in or support such activities, and Cisco vets potential grantees with care. If a grantee appears to be in violation of this policy, Cisco will suspend funding immediately and require the grantee to freeze grant funds until Cisco has investigated the matter. If the investigation discloses violations of this policy, Cisco will require the grantee to return all grant funds; Cisco will classify the grantee as ineligible for future funding; and Cisco will take such other steps as the law may require.

Policy on Advocacy, Lobbying, and Other Political Activity

Cisco's policy with respect to providing grant support to organizations that engage in advocacy and/or lobbying is subject to our diversity policy. This policy states that Cisco does not promote or discriminate against any person, population group, or organization with regard to race, color, religion, sex, gender expression, national origin, age, disability, veteran status, or other categories protected by applicable United States law. In accordance with this policy, Cisco will not provide grant support to any organization that advocates or lobbies against any such protected category.

Furthermore, in order to avoid actual or apparent preferences for any protected or non-protected category over another, Cisco may reject grant support to any organization that lobbies or advocates for or against any single person, population group, organization, or cause/issue (e.g.,

political position, policy, law/legislation, etc.).

In addition, grantees that are classified as charitable organizations under the U.S. Internal Revenue Code must certify to Cisco that they comply with applicable law regarding limits on their lobbying activity and that they do not engage in prohibited electioneering activity. Finally, Cisco does not permit its grant funds to be applied to any individual program of a grantee that involves any type of lobbying or other political activity.

Note: "Lobbying" is defined in Section 4945(e) of the U.S. Internal Revenue Code to mean attempts to influence legislation through grassroots lobbying of the public or direct lobbying of government officials. Certain exceptions exist (e.g., for nonpartisan analysis or invited testimony). "Legislation" includes all matters that may be voted upon by the U.S. Senate or House of Representatives, a state legislature, a local city or county council, an Indian tribal body, or a legislative body in a foreign nation, including votes taken by a committee of such body. Such matters may include votes to approve executive or judicial appointments of public officials as well as new laws or repeal of existing laws. "Legislation" also includes laws voted upon by the people in an initiative, referendum or other vote taken within a national, state, or local area.

"Political" refers to any payment made or action taken, directly or indirectly, to influence the outcome of any political campaign on behalf of, or in opposition to, any candidate for elective public office, including oral or written statements. Such activity is prohibited for tax-exempt organizations under Section 501(c)(3) of the U.S. Internal Revenue Code.

Miscellaneous Policies

Cisco cannot accept legacy paper forms. Application guidelines and requirements are subject to change without notice, and become effective immediately upon posting to this web site. The interpretation and application of these policies is wholly within the discretion of Cisco and the Cisco Foundation. Furthermore, all grants are made at the discretion of Cisco and the Cisco Foundation. Qualification under the policies listed above does not entitle an organization to receive a grant. Cisco reserves the right to decline any grant requested.

Community Impact Cash Grants – Application Process

Cisco accepts Community Impact Cash Grant proposals from qualifying organizations on an annual basis. Organizations whose mission and programs align with the Community Impact Cash Grant Investment Areas may be invited to apply for a grant. These strategic grants are awarded to organizations that have visionary leadership, demonstrated success in responding to community need and are innovative and responsive in their approach. Ideal candidates are able to layer Cisco resources including employees and technology to maximize impact in the local community.

In the spirit of the Silicon Valley Impact Grants program which has been integrated into the Community Impact Cash Grants program, Cisco will continue to accept grant proposals through an alternative Open Application Process for Silicon Valley that is available for an identified period annually. During this time, organizations may submit a grant proposal to Cisco for consideration based on targeted Community Impact Cash Grants - Investment Areas. Please see the table below for details on the Open Application Process for Silicon Valley.

The following general steps apply to both the strategic invitation process, and the open

application process for Silicon Valley. Cisco will provide application instructions to select organizations participating in the strategic invitation process.

Step 1: Review the Investment Areas, Grantmaking Criteria, and Eligibility and Policies

Organizations must review the Investment Areas, Grantmaking Criteria, and Eligibility and Policies requirements to determine if the organization and program align with the Community Impact Cash Grants program.

Step 2: Eligibility Quiz and Get in Touch

Any organization interested in submitting an application for consideration may complete the online Eligibility Quiz. The quiz helps to assess if an organization meets the basic criteria, guidelines and requirements as defined for the Community Impact Cash Grant program. Please note, completing and passing the Eligibility Quiz does not automatically qualify an organization to submit an Initial Information Form or full grant proposal application. Take the Eligibility Quiz now. If your organization aligns with the Community Impact Cash Grant Investment Areas and you have successfully completed the Eligibility Quiz, you will be directed to contact Cisco to make yourself known.

Step 3: Initial Information Form

Your contact information will be forwarded to the appropriate regional representative for review and consideration. If there is an opportunity for a strategic partnership, your organization may be contacted to submit a preliminary request for funding via our Initial Information Form (IIF). The purpose of the IIF is to evaluate whether your organization and/or program should be considered for funding.

During the open application process for Silicon Valley, organizations who successfully complete the Eligibility Quiz will not need to submit an IIF and will be directed to the Online Proposal Application.

Submission of the IIF does not guarantee that an organization will be invited to submit a formal proposal via an online application. IIFs are reviewed wholly within the discretion of Cisco and the Cisco Foundation.

Step 4: Online Proposal Application

Upon review of the organization's IIF, Cisco determines if the organization and its program is aligned with Cisco's mission, strategic approach, and objectives for grant support. If the IIF is approved, the organization will receive an invitation to submit an online proposal application, along with an invitation code for the relevant proposal type. Once the full proposal is submitted, the application will begin the formal review process. If further information is needed, the organization will be contacted by Cisco. An organization can expect to hear from Cisco whether a grant proposal has been approved or rejected within three to four months from submission.

An organization receiving a request from Cisco to submit an online proposal application does not constitute a guarantee of funding. Furthermore, Cisco is not responsible for any related expenses incurred by the organization, at any step in the grant process. Grant policies and requirements are subject to change without notice, and become effective immediately upon posting to this site. The interpretation of these policies is wholly within the discretion of Cisco and the Cisco Foundation. Furthermore, all grants are made at the discretion of Cisco and the Cisco Foundation. Qualification under the policies listed on this site does not entitle an organization to receive a

grant. Cisco reserves the right to decline any grant requested.

Statement 29
Form 990-PF, Part VII-B, Question 1(a)(3)

During the fiscal year ending July 31, 2011, Cisco Systems, Inc. (the Corporation) provided the full-time equivalent of two employees to Cisco Systems Foundation (the Foundation). The Foundation did not reimburse the Corporation for these employees. Moreover, the Corporation provided the Foundation with space rent free. The corporation is a disqualified person with respect to the Foundation under U.S. Treasury Regulation Section 53.4941(d)-2(d)(3). The furnishing of goods and services by a disqualified person free of charge is not an act of self-dealing.
