

# Cisco Data Center Networking (DCN) Licensing

How to Order Cisco Nexus Dashboard

## Contents

Ordering is made easy through two simple steps

### Step 1: License per device

Option 1: Cisco DCN Premier license

Option 2: Cisco DCN Advantage license

Option 3: Cisco DCN Essentials license

Option 4: Cisco Day-2 Operations add-on license

### Step 2: Cisco Nexus Dashboard Platform

Option 1: Cisco Nexus Dashboard Platform (ND-CLUSTER-L4) physical compute

Option 2: Cisco Virtual Nexus Dashboard (ND-VIRTUAL=)

Option 3: Cisco Cloud Nexus Dashboard (ND-CLOUD-AWS=, ND-CLOUD-AZURE=)

Other resources

[Cisco Nexus® Dashboard](#) is a single console for full-lifecycle data center network automation and operations where the services Cisco Nexus Dashboard Insights, Cisco Nexus Dashboard Orchestrator (ND Orchestrator), Cisco Nexus Dashboard Fabric Controller (NDFC), etc., operate. Third-party ecosystem applications can also run on the Cisco Nexus Dashboard.

This document covers the ordering of Cisco® Data Center Networking and Day-2 Operations (Day-2 Ops) solutions. Components include:

- Cisco Nexus Dashboard Platform: physical compute, virtual Nexus Dashboard, and cloud-hosted Nexus Dashboard
- Cisco Nexus Dashboard Insights: automates troubleshooting, monitoring, auditing, and planning, resulting in rapid troubleshooting, proactive detection of anomalies, and early remediation. It is hosted on the Cisco Nexus Dashboard where Cisco ACI® and NDFC (formerly Cisco Prime® Data Center Network Manager [DCNM]) sites are onboarded. Data from these sites is ingested and correlated by Cisco Nexus Dashboard Insights.

As of November 2023, selected Cisco Nexus Dashboard Insights features are [available](#) in Cisco Data Center Networking (DCN) Essentials and Cisco DCN Advantage licensing tiers.

Previously only Cisco DCN Premier customers could access Cisco Nexus Dashboard Insights features. This change allows all Cisco Nexus customers to access selected Cisco Nexus Dashboard Insights features and realize additional use cases and value for each tier.

Ordering is made easy through two simple steps

**Step 1:** Choose a license per device. **For the full breakdown of what features are included in each tier, please reference the [Cisco DCN Software Subscriptions](#) page.**

**Option 1: Cisco DCN Premier license**

**Option 2: Cisco DCN Advantage license**

**Option 3: Cisco DCN Essentials license**

## Contents

Ordering is made easy through two simple steps

### Step 1: License per device

Option 1: Cisco DCN Premier license

Option 2: Cisco DCN Advantage license

Option 3: Cisco DCN Essentials license

Option 4: Cisco Day-2 Operations add-on license

### Step 2: Cisco Nexus Dashboard Platform

Option 1: Cisco Nexus Dashboard Platform (ND-CLUSTER-L4) physical compute

Option 2: Cisco Virtual Nexus Dashboard (ND-VIRTUAL=)

Option 3: Cisco Cloud Nexus Dashboard (ND-CLOUD-AWS=, ND-CLOUD-AZURE=)

### Other resources

**Option 4: Cisco DCN Day-2 Operations or Day-2 Ops solution suite** (for brownfield customers):

This is recommended for customers who already have a Cisco DCN Advantage or Essentials license. The add-on license provides full Cisco Nexus Dashboard Insights capabilities.

**Step 2:** Choose Cisco Nexus Dashboard Platform: physical, virtual, or cloud.

**Cisco Nexus Dashboard Platform:** The Cisco Nexus Dashboard Platform (ND-CLUSTER-L4) is a purpose-built appliance designed to run Cisco applications seamlessly. The Cisco Nexus Dashboard Platform offers high availability, lifecycle management, and network automation for the applications running on it. It is a cluster of three nodes and provides the necessary hardware performance and scale for applications. [More information on Cisco Nexus Dashboard.](#)

The Cisco Nexus Dashboard platform cluster is now bundled with 6 (six) Day-2 Operations licenses to kickstart the customer journey with Cisco Nexus Dashboard Insights. For more information, please reference the landing page or see ordering steps below.

**Virtual Nexus Dashboard:** Cisco Nexus Dashboard is available as a virtual appliance (ND-VIRTUAL=)

**Cloud Nexus Dashboard:** available through [AWS Marketplace](#) and [Microsoft Azure Marketplace](#). Please note that Cloud Nexus Dashboard is currently compatible with Nexus Dashboard Orchestrator. Nexus Dashboard Insights is currently not supported.

## Step 2: Cisco Nexus Dashboard Platform

### Option 1: Cisco Nexus Dashboard Platform (ND-CLUSTER-L4) physical compute

The Cisco Nexus Dashboard Platform is a purpose-built physical appliance that comes with three compute nodes and is designed to run Cisco Nexus Dashboard Insights seamlessly. Both Cisco Nexus Dashboard Insights and Cisco Nexus Dashboard Orchestrator will be preinstalled on the physical Nexus Dashboard before shipment. As customers' needs increase, they have the flexibility to add additional nodes, using ND-NODE-L4=. Please check the Cisco Nexus Dashboard Insights [scale information](#) to determine the nodes required.
